WATER INFILTRATION REPAIRS
SUPREME COURT / STATE LIBRARY
231 CAPITOL AVENUE
HARTFORD, CONNECTICUT
PROJECT: BI- JD-336

BID OPENING	**1:00 P.M.**	**APRIL 12, 2011**
ADDENDUM NUMBER 1	**DATE OF ADDENDUM**	**APRIL 4, 2011**

The following clarifications are applicable to drawings and specifications for the project referenced above.

Item 1
QUESTION:
The specification calls for 785 square feet of one wythe deep to be removed at the west elevation and 735 square feet of one wythe deep at the south elevation – in the same sentence it says see drawing details for total depth to be replaced. When you refer to the drawings details they show three wythes being removed. What is the base bid to include – one wythe or three wythes?

CLARIFICATION:
The face brick will be replaced 100% from the frieze upward as graphically indicated on detail 1/A-2 and 2/A-2. Concerning the brick back-up – we don't know the exact extent of the deterioration (test cut locations revealed two wythes of deteriorated back-up brick) so the unit pricing quantities are per wythe of back-up brick. The back-up brick should ONLY be removed where deteriorated, whether it is one wythe, two wythes, or more. If the back-up brick is not deteriorated it is not to be removed.

Item 2
QUESTION:
The detail 3/A-2 shows a stainless steel drip with reglet behind three wythes. If the depth of replacement changes do you have an alternate detail for this condition?

CLARIFICATION:
Install fabric flashing and stainless steel drip behind three wythes (total) regardless of whether the replacement involves one, two, three, or more wythes total. See details 3/A-2 and 5/A-2.

Item 3
QUESTION:
There is a coping stone at the top of the wall – if three wythes are removed is the intent to remove the coping stones and gutter, which would remain unsupported due to the brick below being removed?

CLARIFICATION:
Regardless of the total number of wythes removed – the coping stones and gutter are to remain in-place and be shored as required during the work.

Item 4
Section 00 72 00 - Guarantees and Warranties, Article 22, Paragraph 22.1

CHANGE:
18 month period to **24 month** period.

Item 5
Section 01 29 76 - Progress Payment Procedures, Paragraph C.1.1.1

CHANGE:
Twenty (21) calendar days to **seven (7)** calendar days.

All questions must be in writing (not phone or e-mail) and must be forwarded to the consulting Architect/Engineer (Martin Benassi, AIA and Fax Number 203.248.6072) with copies sent to the DPW Project Manager (Ward Ponticelli, RA and Fax Number 806.713.7261).
