REQUEST FOR INTERVENOR STATUS

To: Chairman Daniel F. Caruso
Connecticut Siting Council
Ten Franklin Square
New Britain, Connecticut 06051

ISO New England Inc. ("ISO") of One Sullivan Road, Holyoke, Massachusetts 01040, hereby requests that the Connecticut Siting Council (the "Council") grant it intervenor status in the above-captioned proceeding pursuant to Section 16-50n and Section 4-177a of the Connecticut General Statutes and Section 16-50j-15a of the Regulations of Connecticut State Agencies.

ISO is a Regional Transmission Organization ("RTO") which serves as the independent system operator of New England bulk power grid and exercises operational control of the transmission system in New England, including Connecticut. Because it is responsible for the day-to-day reliable operation of the New England region's bulk electric generation and transmission system and is charged by the Federal Energy Regulatory Commission ("FERC") to plan for and ensure a reliable bulk power system for New England, ISO has substantial interests in assuring that electric system resources are adequate to reliably meet forecasted loads for Connecticut. Therefore, ISO has significant interests at stake in this proceeding.

ISO requests intervenor status in this docket in order to monitor the proceedings by receiving filings and notices from the Council and other parties and intervenors. ISO may also participate in the proceeding by filing written testimony, presenting expert witnesses and by cross-examining witnesses. ISO's participation will not impair the orderly conduct of the proceedings.

ISO requests that it be included on the service list for this docket as follows:
