

# Inmate Visiting Rules

## Connecticut Department of Correction

Attachment A  
Rev 10/23/13  
AD 10.6

All persons entering into a correctional institution for the purpose of visiting an inmate are entitled to do so in a safe and respectful environment. Therefore, the following rules shall apply to all visitors and inmates without exception. Violation of any rule may be considered grounds for denial or termination of a visit. The Department reserves the right to take further administrative or legal action as the circumstances warrant.

All visitors to Connecticut Correction Institutions are required to present valid identification. Visitors age 16 and above shall be verified through a driver's license or other appropriate photo identification prior to the visit (ID must be presented prior to each visit). Adults supervising children under the age of 16 shall be required to present a birth certificate and one other document with the child's name on it (e.g., social security card, report card, etc.) prior to each visit.

All visitors to Connecticut Correction Institutions are required to pass security inspection by passing through metal detectors to gain entry. Failure to successfully pass inspection shall be grounds for denial of entry to a correctional institution.

In accordance with Section 18-81v of the Connecticut General Statutes, any visitor who activates a walk-through metal detector shall be given the opportunity to submit to a search with a portable or hand-held metal detector in order to gain entrance into the correctional institution. If the visitor consents to a search with a portable or hand-held metal detector, the visitor shall be escorted by a correction officer of the same sex to a separate room, restroom or other private location within the correctional institution, where the visitor shall first remove any object or article of clothing that activated the walk-through metal detector and then submit to a portable or hand-held metal detector search. If the portable or hand-held metal detector is not activated during such search, the visitor shall be allowed to reapply the object or article of clothing that activated the walk-through metal detector before exiting the separate room, restroom or other private location where the portable or hand-held metal detector search is conducted and shall be allowed to enter the correctional institution. If the portable or hand-held metal detector is activated during such search, the visitor shall be escorted out of the correctional institution.

*Visitors who have an internal medical device and who either activate or cannot pass through a walk-through metal detector, shall NOT be searched with a portable or hand held metal detector. The visitor may be screened by a pat down if he or she consents. If consent is provided and the pat down completed, a visit may be authorized under the terms and conditions deemed appropriate in the discretion of the Unit Administrator or designee. At all times, the Unit Administrator or designee shall maintain the right to permit, limit or deny a visit in furtherance of the safety and security of the facility.*

1. *The following are examples of items that may cause a visitor to be unable to clear the metal detectors; undergarments (with metal); shoes/boots; pins; jewelry; belts; hair clips/ornaments; body piercings; and \* metal surgically implanted in the body for medical purposes.*

***It is important to consider the above prior to visiting a correctional institution to avoid the possibility of being denied visiting privileges. In cases where (\*) above applies, a medical certificate shall be required for verification purposes.***

3. Visitors shall not deliver any items to inmates or other visitors during the course of the visit.
