Hartford, CT 06134

Dear Deputy Commissioner Davis:

This letter serves as notification to the Office of Health Care Access of the replacement of imaging equipment in accordance with the provisions of the Connecticut General Statutes in 19a-638a(b)(18), as amended to date.

Greenwich Hospital will replace its current 1.5T MRI GE Excite which we acquired as part of the Certificate of Need Docket Number #94-531 dated February 9, 1995. The current MRI became operational in October 1999. This MRI will be removed by the selected vendor once installation of the new MRI has begun. We anticipate that the new MRI will become operational by approximately April 2012.

Please call me if you have any questions or would like additional information.

Sincerely,

Nancy M. Hamson
