
Header: Top of a web page.

Side Bar: Side column of a web page.

Content Area: The middle of a web page.

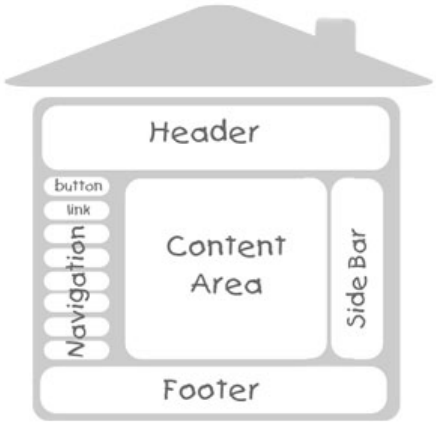
Navigation: Area of a web page where you find buttons (or links) that take you to the important pages of the Web site. Navigation is mostly on the left SIDE BAR or on the HEADER of a web page.

Footer: Bottom of a web page.

My Little Web Book™:

Web Page Layout

Pictionary



The LAYOUT of a Web page is a lot like a house. A house LAYOUT has rooms in it where important things happen. In a Web page, the LAYOUT is where important things happen!
