

Qualidigm

Description:

Qualidigm is a private, non-profit physician member quality improvement organization, which has a contract with the federal government to review the use and quality of services provided to Connecticut's Medicare consumers. The organization's physicians, along with nurses and medical records professionals, review the care provided by hospitals, skilled-nursing facilities, home-health agencies and Medicare Advantage Plans. Their objective is to assure that Medicare consumers receive the care that they need, when they need it and in the appropriate setting.

Qualidigm offers toll-free telephone assistance to Medicare beneficiaries or their representatives who have questions about its program as well as concerns about the quality of the care they receive. In addition, Qualidigm hears appeals from hospitalized individuals who receive notices from the hospital that they were denied Medicare benefits.
