American Red Cross

Description:

The American Red Cross is a humanitarian organization led by volunteers that provide services which offer relief to victims of disaster and help people prevent, prepare for and respond to emergencies. Connecticut Red Cross chapters provide disaster training and services, health and safety services, services to military personnel and veterans and blood to those in need. Chapter staff and volunteers assist disaster clients by providing financial assistance, food, shelter, clothing and emotional support when they have been involved in a disaster, such as losing their homes and possessions to fire. The Red Cross provides mission-related care giving and educational programs related to first-aid, CPR, aquatics and water safety, HIV/AIDS prevention and other health and safety matters. It helps military personnel by keeping in touch with their families when family emergencies occur such as death or serious illness, providing financial assistance when an urgent personal crisis arises and offering families counseling, information, referral and other social services. It also provides assistance and information to veterans about the Department of Veterans’ Affairs and assists them in preparing and developing evidence to support claims for financial benefits through the Board of Veterans Appeals. Red Cross volunteers provide support services to patients in Veterans Administration hospitals. The Red Cross may also help to locate, reunite and exchange Red Cross messages between people separated from their loved ones because of war, civil disturbance or natural disaster.
