VENDOR NAME: AT&T Mobility**SERVICE/PRODUCT NAME: Wireless Service and Equipment: Service****SERVICE/PRODUCT DESCRIPTION:****1. NATIONAL FLAT RATE PLAN** (See map below)

Pay by the minute with a flat per-minute rate on calls made or received anywhere on the AT&T Wireless network and includes:

- 250 mobile-to-mobile/nights and weekend minutes;
- Three-Way Calling;
- Call Forwarding;
- Caller ID;
- Call Waiting.
- Not Valid when making or receiving International calls

1a. Unlimited Voice Calling (See map below)

Unlimited Voice Calling on calls made or received anywhere on the AT&T Wireless network and includes:

- Can be combined with Data/Text Plan;
- Three-Way Calling
- Call Forwarding;
- Caller ID;
- Call Waiting;
- Not valid when making or receiving International calls.

1b. 1,000 Minute Voice Plan (See map below)

Voice Calling on calls made or received anywhere on the AT&T Wireless network and includes:

- Can be combined with Data/Text Plan;
- Three-Way calling
- Call Forwarding;
- Caller ID;
- Call Waiting.
- Not valid when making or receiving International calls.

2. ENHANCED PUSH TO TALK (See map below)

Available as feature and ads on to Nation Flat Rate Plan, Unlimited Calling and 1,000 Minute Voice Plan with Unlimited usage.

Availability status: Easy-to-read icons let you know when members of your contact list are available, not available, or have their status set to "Do Not Disturb." You can also set your own status to let others know that you're busy.

Conversion to voice call: When a quick PTT call needs to be a longer discussion convert the call easily to a regular voice call. Works for one-to-one calls as well as group calls.

Quick groups: Save time on group calling by pulling up your contacts and simply "marking" those you wish to include on a call. No need to set up and save groups before calling, unless you want to.

Contact alerts: Find out immediately when someone you're waiting for becomes available.

ENHANCED PUSH TO TALK also comes with the following features:

- Contact List - Up to 1000
- Group Calls - Up To 250 people
- Supervisory Over Ride - Allows supervisor to over ride push to talk calls in order to communicate time sensitive messages to the team
- Works with currently offered Apple, Android and Blackberry models

3. INTERNATIONAL ROAMING

International Roaming packages available for dialing from United States and roaming outside the United States. International Roaming rates will depend on the Country dialed or traveled too.

4. WIRELESS PRIORITY SERVICE (WPS)

Available to authorized individuals through the National Communications Service.

Wireless Priority Service (WPS) provides priority cellular network access. The WPS was approved by the FCC for NS/EP requirements on a call-by-call priority basis. The NCS executes the program on behalf of the Executive Office of the President. Only individuals in NS/EP key leadership positions are authorized use of WPS. One time activation fee and monthly rate associated with service. Visit: <http://wps.ncs.gov/>

5. MESSAGING PLANS

Per use charges will apply if messaging plan is not added or if messaging has not been blocked. Messaging is unlimited text, instant, picture and video messages.

5a. BUSINESS MESSAGING

Allows subscribers to receive application-to-mobile messages sent to their devices. Can be combined with the Unlimited Texting Plan.

6. BLACKBERRY ACCESS PLAN

Blackberry plans also require a voice plan.

7. DATA CONNECT PLANS (See map below)

AT&T Mobility Data Connect plans give your agency nationwide coverage of our 4G/3G network. No domestic data roaming charges. This is used for Modems, Android devices, Air Cards and Hotspots.

7a. iPhone - 4G DATA PLANS (See map below)

AT&T Mobility iPhone Unlimited Data plan will give your agency nationwide coverage on our 4G/3G network. No domestic data roaming charges. With AT&T's network you can wirelessly access your applications and e-mail with enhanced security when away from the office.

8. iPad WIFI/4G DATA PLANS (See map below)

AT&T Mobility iPad Data plans (3GB or 5GB) give your agency nationwide coverage on our 4G/3G network. No domestic data roaming charges. With AT&T's network you can wirelessly access your applications and e-mail with enhanced security when away from the office.

8a. STATIC IP ADDRESS

IP address is the addressing system used on the Internet and defined in the Internet Protocol. A static IP address is an address that is permanently assigned to one computer.

9. AT&T CONNECTIVITY SERVICE (CCS)

Host Connect is part of Cingular's wireless services that provides flexible configurations for reliable Customer's network to Cingular's network connections for remote wireless access to enterprise data resources.

The Wireless IP (OSI Layer 3) transport service enables mobile access by Customer's employees to Customer's private IP network, using Provider's GPRS / EDGE access network

via a dedicated Access Point Name (APN) - the virtual routing instance in the Provider network - and a dedicated connection to the Customer's network. This connection will be made via an - Internet Virtual Private Network (VPN) and/or Frame Relay connection. The mobile device connection to the GPRS / EDGE network must be initiated by the mobile device. Customer may opt to use a Short Message Service ("SMS") message to notify a mobile device that the mobile device needs to activate the GPRS / EDGE connection provided their application and mobile devices support such a notification SMS notification message. Traffic addressed to any other destinations will be silently discarded by the CW Providers network.

10. TELENAV TRACK LITE

TeleNav Track LITE is a Web-based mobile resource management solution that helps eliminate the need for costly field upgrades and complicated user training. There is no software to load, no remote device administration, and it works on virtually all AT&T phones, laptop cards and wireless notebooks.

11. ACTSOFT CALAMP LMU 3000 (Plug'n Play) & 2620 (Wired with harness)

The LMU-3000 & 2620 is an economical full featured vehicle tracking product designed for easy and reliable installation in automobiles. The LMU-3000 & 2620 is an ideal solution for driver behavior management. This full featured tracking unit enables the LMU-3000 & 2620 to access vehicle diagnostic interface data, track vehicle speed and location plus detect hard braking, idle time and acceleration. The LMU-3000 & 2620 is designed to dramatically reduce costs.

12. INTERNATIONAL DATA ROAMING

The data packages are available on all data devices (except Wireless home phone) including Smartphones, iPhones, iPads, Tablets, Netbooks, Laptop Cards and MiFi' devices. They are compatible with all technology types (3G, HSPA+ and 4G). One month minimum required.

13. WARRANTY

AT&T Mobility's Warranty Service program supports customers who are experiencing a device defect with their devices from 30 days to 12 months of the first-use date. The warranty agents troubleshoot the issue to determine defect. They offer options to the customer that may include a warranty exchange. Please call 1-800-801-1101.

14. AccessMyLAN

Gives your employees flexible access to resources behind the firewall – resources that your business can provide without a large technology department for support. On one device, with a single click, employees have remote access to email files and applications residing on the Local Area Network. AccessMyLAN from AT&T is a reliable mobile solution on AT&T's trusted wireless network.

15. MicroCell

Experience strong network performance right in your home. Get more bars in areas where some users could experience a weaker voice signal due to home construction or geography. The signal range is approximately 40 feet from the base station (in all directions), or about 5,000 square feet. Usage while connected to the AT&T MicroCell will count against your underlying wireless device voice rate plan. Up to 4 phones can be used simultaneously. Ethernet connection needed and must be registered with an AT&T consumer phone number. Customer support phone number included with device if needed.

16. e-Cycle Device Buy Back Program

e-Cycle's mobile buyback program is simple and profitable. Working with a dedicated regional account manager, e-Cycle will purchase your used, functioning mobile phones and devices. E-Cycle will delete all private data and recycle non-reusable devices at no charge. Key points of the e-Cycle mobile buyback program:

- A turnkey solution to recover the value of your company's wireless assets.

- Prepaid FedEx shipping labels for fast, convenient delivery of devices.
- A full inventory report detailing the make, model and value of every mobile phone purchased. E-Cycle accepts AT&T/Sprint & Verizon Cellular devices.
- Fast processing and quick payments. E-Cycle will credit the amount directly to your Billing Account number with AT&T.
- Complete data deletion and protection. Written certification will be included.
- Please see Product Schedule Wireless SVC 2 and Note 7 for pricing buy back details.

SERVICE AVAILABILITY/LIMITATIONS:

Refer to coverage map to see where user will be roaming when not in home footprint. Data connect plans are available only for activation of service on select equipment and will work only with select AT&T features, billing services and other service offerings.

AT&T Connectivity Service

The connection shall not be utilized for the sending of SMS messages, except for the use of such message solely as a signal to activate an end user data device application. Except for use as an activation signal, no data or content shall be passed via an SMS message, either from the host application to a mobile device or from a mobile device to the host application.

The connection is restricted to facilitating the exchange of data between subscribers of Provider data services and the Customer. Providers Host Connection Service must be used with the Provider's data services as found on the Services Product Schedule.

The connection is restricted to a single connection into the Provider Facilities. Each additional connection into the Provider Facilities must serve the identical Host Application as the original connection into the Provider Facilities. Requests for additional Host Applications must be reviewed and agreed to in order to prevent any adverse impacts on the performance of the AT&T Wireless network.

Provider will provide customer support and trouble analysis within layers one, two and three of the OSI Stack as defined in [IS7498:84] OSI, Open Systems Interconnection - basic reference model, International Standard OSI 7498 Part 1, 1984.

All user traffic above OSI layer 2 will be billed according to the Customer's particular rate plan as set out in the Service Product Schedule attached to the Master Agreement.

The Host Connection does not include:

- The cost of procuring, implementing, operating, and maintaining the facilities (including, but not limited to leased lines, frame relay services and the like) necessary to interconnect the Provider Facilities and the Host.
- The costs for ordering and paying for Customer's end of the physical connection to a public provider network.
- The Provider paying for the cost of the Provider's physical connection to a public provider network.
- Any usage / traffic transport charges levied by a 3rd party public network provider for dedicated links such as Frame Relay PVC usage on this dedicated connection.

Note 2 Need both Item codes. Also Per Minute charges include calls made or received.										
Note 3 Can be combined with the Unlimited Text Messaging for an additional \$5.00 charge. Otherwise default pay-per-use rates apply.										
Note 4 When attaching 5GB Tethering plan you loose the Unlimited data plan option. Internet tethering can increase cellular data usage and should be disabled when not is use to avoid additional usage charges. Also Flat Rate Voice Plan needed.										
Note 5 Comet Tracker Tiered "MRC" Pricing. *Please note* 0-100 units \$21.00, 101-200 units \$19.00, 201+ units \$17.00										
Note 6 AccessMyLAN also needs the Unlimited Data Plan.										
Note 7 e-Cycle Device Buyback Program. Phones/Aircards/Tablets are eligible. Earn between \$1.00 and up to \$300.00 per device.										
Note 8 If a State of Connecticut Agency wants their own Access Point Name / Commercial Connectivity Service then both fees of \$500.00 & \$1,995.00 apply.

NOTE 1: All new telephones, hand-held products, and USB cards come with a 12-month warranty.

NOTE 2: AT&T will provide, at the user's option, one free (Basic) telephone with full network capabilities (dual mode, tri-mode) along with vehicle power and A/C adapter chargers per telephone number and a free trade-in or replacement every 12 months thereafter.

NOTE 3: Experience strong network performance right in your home. Get more bars in areas where some users could experience a weaker signal due to home construction or geography. (Home or Office). The signal range is approximately 40 feet from the base station (in all directions), or about 5,000 square feet. Usage while connected to the AT&T MicroCell will count against your underlying wireless device voice rate plan

NOTE: Grey highlighted items are no longer available. They have been either deleted, changed or no longer applies
