**VENDOR NAME:** Nextel Sprint Communications

**SERVICE/PRODUCT NAME:** Wireless Service and Equipment: Service

**SERVICE/PRODUCT DESCRIPTION:**

Sprint's integrated data and voice network provides customers with one single, dynamic integrated digital nationwide footprint; 100% digital CDMA cellular voice communications; digital "always on", IP-based packet data service; and no roaming charges within the U.S. on most plans. Sprint's 4-in-1 wireless communication solution provides digital cellular, Specialized Messaging Services, and wireless circuit and packet data.

**Sprint Direct Connect**® is the 2-way digital walkie-talkie feature that lets you get right through *instantly* without the hassles of voice mail, phone tag or time delays. Sprint Direct Connect® is available on certain phones and lets you instantly contact other Sprint Direct Connect® users. It provides instant communication via a private or group "Walkie-talkie"-like call. Sprint Direct Connect improves productivity and reduces "telephone tag".

**Group Connect**™ (now called **Talkgroup**) allows customers to instantly communicate with up to 25 people at once with the push of a button, using Sprint Direct Connect service. It is a great feature for team members who depend on timely, consistent communication. Instead of making multiple calls, customers can reach more people at once -- get answers and get back to work.

**Sprint's Connection Cards** allow customers to wirelessly access their email, corporate network, and the Internet at high speeds on Sprint's Networks

**Sprint Flat Rate Business Plan**

**Overview**

The National Flat Rate Plan consists of a monthly recurring charge and a flat per minute rate. The per minute rate is applicable to all Voice Minutes Used, including Anytime Minutes, Nights & Weekends, Nationwide Long Distance, Sprint Mobile-to-Mobile Calling and Sprint Direct Connect. There are no included plan minutes. Shared minutes are not available and all plans include voice mail and caller ID. Additional Sprint Direct Connect® features, including, but not limited to, Talkgroup, Group Connect and International Direct Connect, are available with certain devices and are subject to an additional charge. Customers may not combine certain voice plan add-ons, including Sprint Mobile-to-Mobile, Shared Minutes, and Unlimited Nights & Weekends (nights starting at 9pm), with this plan.

**Sprint Business Essentials**

**Overview**

Sprint Business Essentials® Plan is our core wireless voice offering that provides buckets of minutes that can be shared across users on an account with the added benefit of Unlimited Sprint Mobile to Mobile Calling (CDMA) or Unlimited Nationwide Walkie-Talkie. Cellular minutes share across all Sprint Business Essentials® plan tiers within an account. With the Sprint Mobile to Mobile Calling option, your customers receive unlimited minutes for calls between Sprint Phones. This is a valuable option for employees who often call other Sprint Phones, as Anytime Minutes are saved for other call types.

Along with a group of Anytime Minutes, subscribers also receive extended calling time with:

- Unlimited Nights & Weekends
- Unlimited Nationwide Walkie-Talkie or Mobile to Mobile (CDMA) Minutes
- Nationwide Long Distance
- Voicemail and Caller ID
- Shared Cellular Minutes

Ability to "Add-A-Phone". The Add-A-Phone has no minutes allowance of its own but will share the minutes of the other lines on the account.

## Program Details

- Included Minutes & Sharing
- Anytime cellular minutes share across all rate tiers on the same network.
- Additional Add-a-Phone lines are available for low cost.
- Customers CANNOT purchase the Add-a-Phone as a stand-alone plan. A customer must have at least one Sprint Business Essentials® core plan. There is no limit to the number of add-on plans that may be added to an account.
- Unlimited Nights & Weekends are included.
- Night and Weekend Minutes can be used from Monday through Thursday 9pm to 7am and Friday 9 pm to Monday 7am.
- Unlimited Mobile to Mobile Minutes
- Long Distance is included.
- Caller ID and Voicemail are included.
- Roaming is included on CDMA Network. Roaming not available with single-band phones or for customer located outside the Nationwide Sprint Network.
- Roaming usage may not exceed 50% of total usage per month or allocated roaming minutes in applicable markets. Roaming minutes cannot be shared.
- International roaming rates will vary and may be billed separately.

## Sprint Business Essentials® Plans:

400 Anytime Minutes

1000 Anytime Minutes

1400 Anytime Minutes

2000 Anytime Minutes

2800 Anytime Minutes

4500 Anytime Minutes

Add a Phone (0 Anytime Minutes)

## Definitions:

Add A Phone: Great for small businesses, Sprint Add-a-Phone lets you share plan minutes on one account.

Anytime Minutes: Anytime Minutes are included in all Sprint Service Plans. On most plans, Anytime Minutes are used from 7 a.m. to 9 p.m., Monday through Friday. If your plan does not include Night & Weekend Minutes, then your Anytime Minutes are also used from 9 p.m. Friday through 7 a.m. Monday. Anytime Minutes are also shared between all phones on a Sprint Add-a-Phone® account.

Unlimited N&W Minutes (Starting at 9 PM): **Night & Weekend Minutes are included in most Sprint Service Plans.** On most plans, Night & Weekend Minutes are used from **9 p.m. to 7 a.m.**, Monday through Friday and all day on Saturday and Sunday. If your Sprint Service Plan does not include Night & Weekend Minutes, then minutes used during this time would count towards your Anytime Minutes. Night & Weekend Minutes are also shared between all phones on a Sprint Add-a-Phone account.

Unlimited Mobile to Mobile Minutes: With unlimited Mobile to Mobile Calling, you can make or receive unlimited nationwide calls between every Sprint Phone (while on the Sprint Nationwide Networks. Unlimited Mobile to Mobile Calling minutes do not take away from your anytime minutes. As long as you call another Sprint Phone, you will not be charged minutes if unlimited Mobile to Mobile Calling is part of your service plan.

## Sprint CDMA EV-DO and EVDO Rev-A Connection Card Plan

Sprint's Connection Cards allow customers to wirelessly access their email, corporate Network and the Internet at high speeds.

## **CDMA EVDO CONNECTION CARDS DATA PLAN:**

### **Unlimited Data Plan**

- Unlimited data usage
- Can be used for any type of Sprint card ( 1xRTT, EV-DO, EVDO Rev-A)

### **Text Messaging**

Send and receive SMS text messages and/or SMS Voice messages instantly across the room or across the country. Now also send and receive messages to/from over 70 countries from the US with International Text Messaging.

#### **Pay-As-You-Go Messaging**

- Pay-as-you-go basic messaging service, send and receive text, picture and audio messages from your Sprint phone, any email address or through Sprint.com. Cost per message.

#### **Text Messaging 300 Plan**

- 300 Text Messages and pay-as-you-go image/audio messages.
- Alerts are charged per received message. One way messaging alerts are one way messages that can only be received by the customer, and do not require a text messaging service subscription.

#### **Text Messaging 1000 Plan**

- 1000 Text Messages and pay-as-you-go image/audio messages.
- Alerts are charged per received message. One way messaging alerts are one way messages that can only be received by the customer, and do not require a text messaging service subscription.

#### **Unlimited Text Messaging Plan**

- Unlimited text messaging and pay-as-you-go audio/image messaging. .
- Alerts are charged per received message. One way messaging alerts are one way messages that can only be received by the customer, and do not require a text messaging service subscription.

## **BLACKBERRY PLAN:**

Plan includes the following:

- Zero Cellular Minutes. All Cellular use at an additional fee per minute.
- Zero Sprint Direct Connect. All Sprint Direct Connect Minutes at an additional fee per minute.
- Unlimited BlackBerry email and Web

Unlimited Mobile to Mobile can be added for additional cost. This will enable unlimited cellular calls between Sprint phones.

## **WORLDWIDE BLACKBERRY EMAIL AND WEB PLAN: (Voice Plan Require)**

Plan includes the following:

- Zero Cellular Minutes. All Cellular use at an additional fee per minute.
- Zero Sprint Direct Connect. All Sprint Direct Connect Minutes at an additional fee per minute.
- Unlimited GSM/GPRS email and web access in all GPRS countries
- Voice, Long Distance, Off Network Roaming, Off-Network Long Distance, billed at an additional cost.
- Includes Unlimited MB Web access, wireless e-mail.

Not combinable with Data Packs. Phone as Modem not included.

**WIRELESS PRIORITY SERVICE (WPS)** allows authorized National Security and Emergency Preparedness (NS/EP) personnel to make cellular calls during an emergency when channels may be congested. WPS is the interconnect complement to Sprint's own Priority Connect service.

WPS is overseen by the National Communications System a division of the Department of Homeland Security. WPS was developed to meet a directive from the White House. NCS executes the program on behalf of the Executive Office of the President. Only individuals in NS/EP positions are authorized to use of WPS. Five categories have been established in order to identify critical NS/EP leadership functions and determine eligibility. Users must apply for and be approved by the National Communication System for Wireless Priority Service. Customers must apply directly to the NCS for Wireless Priority Service and be approved in order for Sprint to be able to add this service to a number. WPS is for leadership positions only and is not intended for use by all emergency service personnel. Priority Levels are:

- A. Executive Leadership and Policy Makers
- B. Disaster Response/Military Command and Control
- C. Public Health, Safety and Law Enforcement Command
- D. Public Services/Utilities and Public Welfare
- E. Disaster Recovery

Customer must be a Sprint subscriber. Customer must request WPS service at <http://wps.ncs.gov> or call 1.866.NCS.CALL to apply. NCS will inform Sprint of those subscribers that are approved for WPS and at what Priority Level. Sprint cannot add, delete or modify a WPS subscription without NCS consent. Customers may access additional information at <http://wps.ncs.gov/>.

WPS is invoked by dialing \*272 prior to the destination number. Wireless Priority Service has a one-time activation fee, a monthly charge, a per minute charge, and additional long distance charges if the customer's rate plan does not include long distance. Use of Wireless Priority Service does not draw down upon cellular minutes in a voice rate plan. Wireless Priority Service does not work outside of the United States.

**Sprint 411** – provides phone numbers, addresses, and directions.

**Standard Static IP Address (CDMA)** - Allows Customer to purchase a Static IP address to attach to their device.

### **Sprint AIRAVE™**

Sprint AIRAVE™ provides enhanced wireless service, even if there is no coverage, for to 5,000 square feet. Sprint AIRAVE™ works with any Sprint phone — up to three users at the same time. Installs with existing broadband Internet access, such as DSL, cable or T1. Automatically transfers calls to the Sprint Nationwide Network once outside the 5,000 square foot area provided there is sufficient signal from the Sprint Network beyond the range of the AIRAVE Base Station. Limit access to the AIRAVE by creating a list of up to 50 approved Sprint phone numbers.

What Is Needed:

Active Sprint phone(s), Sprint voice plan, Broadband Internet access, such as DSL, cable or T1. Available Ethernet port — either on your modem or via a router — to connect AIRAVE to your broadband data service. Available power outlet.

### **BLACKBERRY TECHNICAL SUPPORT SERVICES**

#### **SMB ADVANTAGE SUPPORT**

##### **Included Service Features:**

##### Coverage and Access:

- 24 x 7 Telephone with an average 90 seconds response.
- Blackberry Expert Support Center (BESC) ( 2-Hour Response on Electronic Incidents)

##### Problem Management

### **SPRINT® MOBILE INTEGRATION (SMI):**

An exclusive Sprint service that extends calling and PBX features and functionality to CDMA wireless devices on the Nationwide Sprint Network. SMI provides end users with the freedom to work virtually anywhere, at anytime.

Sprint customers can leverage SMI to reduce wireless calls to applications traditionally available only from legacy voice services or local access trunks, such as voicemail or audio conferencing. SMI transforms a Sprint customer's mobile device into an extension of their existing service; the Sprint mobile device acts like a desk phone or soft phone.

The CDMA handset obtains all of its features from the application server, giving end users one voicemail box, ubiquitous and standard features, and centralized control of end-user services. Once customers have implemented SMI, they can begin to consider replacing their desk sets with Sprint mobile devices.

### **3G/4G CONNECTION CARD SERVICES OVERVIEW**

Sprint 3G, has average download speeds of 450-800KBPS with peak speeds reaching 3.1MBPS. Average upload speeds of 300-400KBPS with peak speeds of 1.8MBPS are also experienced. 3G peak speeds can be reached when optimum connectivity is established: when near a tower and there are relatively few others using the nearby service.

The Sprint 4G Network offers download speeds up to ten times faster than most 3G networks, and with significantly lower latencies, will permit migration from fixed to mobile many delay-sensitive applications, such as Voice Over IP (VoIP), video streaming, video teleconferencing and other business applications that Sprint's users rely on to access critical information in real time.

Sprint 4G, has average download speeds of 3-6MBPS with peak speeds over 10MBPS, and an average upload speeds of 350-500KBPS with peak speeds up to 1MBPS are also experience.

Sprint wireless data Services is not meant to be used: (a) to generate excessive amounts of Internet traffic through continuous, unattended streaming, downloading or uploading of videos or other files or to operate hosting services including, but not limited to, web, or video surveillance; (b) to maintain continuous active network connections to the Internet such as through a web camera or machine-to-machine connections that do not involve active participation by a person.

If Users' data usage on the Sprint 3G Network and the Nationwide Sprint Network in a given month exceeds 300MB while Roaming, Users' will be liable for overage charges. Where the wireless high speed data network is available and a wireless high speed data-compatible device is used, Users' will first attempt to connect to the Sprint 4G Network, then the Sprint 3G Network, and then will default to the Nationwide Sprint Network depending on coverage and network Availability. Roaming is not available on the Sprint 4G Network at this time.

### **PDV CONNECT (FORMERLY SPRINT NEXTMAIL)**

PDV Connect (formerly Sprint NextMail) is a unique mobile communications service enabling instant communication with any subscriber on the Nationwide Sprint Network. With PDV Connect, Sprint's customers can instantly send a voice message to up to 50 recipients via a text or voicemail to an e-mail destination and/or mobile phone. With a push of the button (via Direct Connect or "Send" voice call (Sprint handsets), a PDV Connect message can be easily sent. PDV Connect is a quick and simple way to Record, Document and Share information from the field with those in an office.

Additionally, PDV Connect Pro (formerly Sprint NextMail Professional) enhances the standard PDV Connect service by offering Sprint's customers' mobile employees the ability to send instantly their location information and pictures along with their PDV Connect messages. It is an easy way for mobile users to show where they were at any point in time, without being tracked. Location and pictures can be viewed online or on the terminating e-mail address. This information is not available when sending the message to a mobile handset via a text message.

Features of PDV Connect include:

- Push or Send to Locate
- Push or Send to Photo
- Push or Send to Mobile Time Card
- Push or Send to Status Map
- Push or Send to Document
- Push or Send to Voice Reply Text Message
- Push or Send to Mobile to Individual or Group Voice Messaging with 'Listen to Verification'
- Push or Send to Voice Interoperability

PDV Connect offers many valuable benefits that improve efficiency and effectiveness of communication, resulting in increased collaboration and productivity in the workplace. Below are some of the ways our subscribers can benefit by using PDV Connect:

- Intelligent Queuing
- Reduces Hold Times
- Improves Safety
- Reduces Paperwork
- Improves Efficiency
- Increases Productivity
- Easy Collaboration
- Improves Customer Satisfaction
- Dispute Resolution

#### **In-Store/Assigned Care Repair/Replacements**

Customers will be charged a flat fee regardless of warranty period for in-store services. In-store services are defined as eligible repairs required to devices. In-store services are not available on all device models. Customers will be charged a flat fee regardless of warranty period for assigned care representatives services

#### **TECHNOLOGY EVOLUTION**

In the normal course of technology evolution and enhancement, Sprint continually updates and upgrades its Networks, Products and Services. In some instances, these efforts will result in the need to ultimately replace certain offerings or technologies. In such event, Sprint will undertake such replacement efforts in a customer-focused and commercially reasonable manner and will, throughout the process, provide its customers with periodic updates that provide relevant information.

As part of such technology evolution, Sprint may choose to migrate the State from Products activated on the Nextel National Network to either a Sprint® Direct Connect® push-to-talk ("PTT") Product, or a State selected non-PTT Product, that runs on the Nationwide Sprint Network; provided that Sprint will not undertake any such migration with less than 12 months prior notice. , The State will have the ability to upgrade its existing devices to new or replacement devices under the then effective and applicable Sprint handset upgrade program as set out in the current product schedule. If the State has any devices that are not eligible for upgrade under this handset upgrade program, the parties will mutually agree on an alternative process for replacement of devices with devices that are compatible with the replacement technologies. If the State is migrated to a new technology under this provision, upon completion of such migration the provisions related solely to the Nextel products and services will be removed from the product schedule.

### Everything Data 450 Plan

Includes 450 Minutes airtime plus Any Mobile, Anytime, Unlimited Nights & Weekends (7:00PM) Data & Messaging. Messaging: text, picture & video. Data: GPS Navigation, Sprint TV, Web Browsing, Mobile E-Mail, BB BIS.

### TELENAV

TeleNav Enterprise Mobility provides a comprehensive suite of solutions available today for managing an organization's mobile workforce and assets. TeleNav provides advanced and fully-integrated workflow management tools, GPS tracking and navigation capabilities, and it will all work seamlessly with back-office apps.

#### **Telenav Product-Set and Features:**

- **Handset Telenavtrack LITE**
  - Provides GPS tracking, location tracking, Landmarks, GeoFence Alerts and live web training
- **Handset Telenav Timecard\***
  - Provides GPS tracking, location tracking, Landmarks, GeoFence Alerts and live web training. **Adds features:** store and forward, speeding and stop alerts, text messaging, customizable map and mileage alerts.
- **Handset Telenav Forms**
  - Provides GPS tracking, location tracking, Landmarks, GeoFence Alerts and live web training, store and forward, speeding and stop alerts, text messaging, customizable map and mileage alerts. **Adds features:** job dispatching, job scheduling alerts, barcode scanning, signature capture and team time card.
- **Handset Telenav Jobs**
  - Provides GPS tracking, location tracking, Landmarks, GeoFence Alerts and live web training, store and forward, speeding and stop alerts, text messaging, customizable map and mileage alerts. job dispatching, job scheduling alerts, barcode scanning, signature capture and team time card. **Adds features:** real time audible GPS navigation, Business directory

### MACHINE-TO-MACHINE ("M2M")

M2M solutions and partners allow Sprint to integrate digital voice, broadband data communications and GPS functionality into a broad range of devices such as compact laptops, modems, meters, call boxes, and mobile terminals to make them compatible with Sprint's 3G and 4G networks. Sprint can offer the State a broad range of wireless M2M solutions to support applications such as:

- Asset and People Tracking
- Digital Signage
- Fleet and telematics
- ATM/Point of Sale
- Remote securing and monitoring
- Smart Grid

Sprint is offering the below M2M Plans to Customer Lines

- **Telenav Enterprise M2M service – 2MB**
  - Provides GPS tracking, location tracking, Landmarks, GeoFence Alerts and live web training via in-vehicle modem and provides for 2MB data per month
- **Telenav Enterprise M2M service – 5MB**
  - Provides GPS tracking, location tracking, Landmarks, GeoFence Alerts and live web training via in-vehicle modem and provides for 5MB data per month

### **SPRINT TABLET DATA PLANS**

Sprint offers full featured tablet data plans for the iPad and iPad mini's. Plans offered support both 3G and 4G and will support LTE and WIMAX services. There are 4 usage plans offered for agencies to best customize to their individual needs. These plans are only available on sprint tablets.

### **SPRINT MOBILITY MANAGEMENT**

Sprint Mobility Management Services offer Inventory and Expense Management, Device Lifecycle Management, End User Help Desk and Mobile Device Management and Security for Customer's wireless Devices.

- A. Services. Sprint will provide the Mobility Management Services selected by Customer and identified in the Wireless Services Product Schedule. Customer may change the type or components of Services with thirty (30) days' notice. Any change in the type or components of Services may change the Rate. Rate changes are retroactive to the beginning of the billing cycling in which such change occurred.
- B. Options. Options may be added on a per-mobile line basis for the listed MRC or NRC identified in the Wireless Services Product Schedule, unless otherwise noted.
  - Service Pricing Discounts. Sprint Mobility Management Services are not eligible for Service Pricing Discounts.

Sprint Mobility Management consolidates your mobile spending within one user-friendly tool and offers an intuitive web portal to monitor and manage your mobile assets. In addition, you can depend on expert Sprint support for every aspect of mobility, optimizing your communications investments.

What you'll get:

- **Lifecycle management for mobile devices** - includes procurement, fulfillment, maintenance and replacement/retirement.
- **Billing/expense management** - a simple, consolidated dashboard makes it easy.
- **Enhanced care** - a dedicated, single source for service, support and proactive consultation
- **User-friendly web portal** - use it 24/7 for self-service inventory, usage and billing details
- **Detailed reporting/analysis** - optimize your mobility investment across plans, services and carriers
- **Robust security services** - ensure protection for your mobile devices and sensitive data
- **Policy tracking and enforcement** - maintain standards for your mobile enterprise assets.

### **3G/4G CONNECTION CARD PLAN (see reference to Acceptable Use Policy below)**

The 3G/4G Connection Plan provides both EVDO (using CDMA technology) and Sprint 4G data functionality in certain coverage areas of the United States. Sprint 4G Network coverage is not available everywhere and requires a Sprint 4G Network data-compatible connection card. Customer may contact its Sprint Account Representative for current coverage areas and applicable wireless devices. Sprint reserves the right to limit the devices that can be used with this Business Plan. This Business is only available to Customer Lines domiciled in the United States.

The 3G/4G Connection Card Plan includes unlimited data usage on the Sprint 4G Network, the Sprint 3G Network and the Nationwide Sprint Network. Wireless high speed data coverage is not available everywhere and requires a wireless high speed data-compatible device. Where the wireless high speed data network is available and a wireless high speed data-compatible device is used, Customer Lines will first attempt to connect to the Sprint 4G Network, then the Sprint 3G Network, and then will default to the Nationwide Sprint Network depending on coverage and network availability. Roaming is not available on the Sprint 4G Network at this time. Premium Services content is not available with this Business Plan. Premium Services is defined as downloads and applications, such as ringers and screen savers, available through wireless data Services and beyond basic data usage.

### **SPRINT TIERED TABLET DATA PLANS**

The Sprint Tiered Tablet Data Plans offer a range of tablet data plans based on the Customer Line's needs: 300MB; 3G; and Unlimited (see reference to Acceptable Use Policy below). The Sprint Tiered Tablet Data Plans are the same whether Customer Lines use the Sprint 4G Network (if included), the Sprint 3G Network or the Nationwide Sprint Network. Sprint 3G Network coverage is not available everywhere and requires an EVDO-compatible data device. When the Sprint 3G Network is available and Customer uses a Sprint EVDO-compatible device with a wireless high-speed data Business Plan, Active Units will first attempt to connect to the Sprint 3G Network, and then default to the Nationwide Sprint Network depending on coverage and network availability. When the Sprint 4G Network is available and Customer uses a Sprint 4G –compatible device with a Business Plan for Sprint 4G Services, Active Units will first attempt to connect to the Sprint 4G Network, and then default to the Sprint 3G Network or Nationwide Sprint Network depending on coverage and network availability. Data Usage on the Sprint 4G Network requires a 4G capable device. Roaming is not available on the Sprint 4G Network at this time. Additional charges apply for messaging service. Customer may contact its Sprint Account Representative for current coverage areas and applicable tablet devices.

### **SPRINT MOBILE HOTSPOT ADD-ON PLANS FOR TIERED TABLET DATA PLANS ONLY**

Sprint Mobile Hotspot Add-On Plans may be added for an additional MRC to any of the Sprint Tiered Tablet Data Plans only. The range of Sprint Mobile Hotspot Add-On Plans are based on the Customer Line's needs: 2GB and 6GB. The Sprint Mobile Hotspot Add-On is only available on certain HotSpot capable wireless devices. Sprint Mobile Hotspot Add-On usage is separate from the underlying plan usage.

### **3G/4G EMBEDDED CONNECTION PLANS**

The 3G/4G Embedded Connection Plan provides both EVDO (using CDMA technology) and Sprint 4G functionality in certain coverage areas of the United States. Sprint 4G Network coverage is not available everywhere and for access to the Sprint 4G Network this Business Plan requires a Sprint-sold Sprint 4G Network-compatible embedded connection data device. Sprint 3G Network coverage is not available everywhere and for access to the Sprint 3G Network, this Business Plan requires an EVDO-compatible embedded connection data device. Customer may contact its Sprint Account Representative for current coverage area and eligible wireless devices. Sprint reserves the right to limit the devices that can be used with this Business Plan. This Business Plan is only available to Customer Lines domiciled in the United States.

The Embedded Connection Plan includes unlimited data usage on the Sprint 4G Network (on select, capable devices) and up to 5GB/month aggregate data usage on the Sprint 3G Network and Nationwide Sprint Network. All pricing is the same whether Customer Lines use the Sprint 4G Network, the Sprint 3G Network, or the Nationwide Sprint Network. When the Sprint 3G Network is available and Customer uses a Sprint EVDO-compatible embedded connection data device with this Business Plan, Customer Lines will first attempt to connect to the Sprint 3G Network, and then default to the Nationwide Sprint Network depending on coverage and network availability. When the Sprint 4G Network is available and Customer uses a Sprint-sold Sprint 4G Network-compatible embedded connection data device with this Business Plan, Customer Lines will first attempt to connect to the Sprint 4G Network, and then default to the Sprint 3G Network or Nationwide Sprint Network depending on coverage and network availability.

### **SPRINT CONNECTICUT CHOICE ECONOMY PLAN**

The Sprint Connecticut Choice Economy Plan will offer Customer Lines the following features:

- 400 Anytime Minutes with a nominal Anytime Minute Overage Charge
- Unlimited Sprint Mobile-to-Mobile
- Unlimited Nights and Weekends beginning at 7PM
- Unlimited Direct Connect® and Group Connect®
- Nationwide Long Distance Included
- Caller ID and Voicemail Included
- Unlimited Internet Browsing and E-mail Included
- Unlimited Messaging
- Premium Data Add-On Included
- Data Roaming
- Shared Minutes not available

Customer Lines activated on the Sprint Connecticut Choice Economy Plan may upgrade their device after 20 months of continuous service. Wireless high speed data coverage is not available everywhere and requires a wireless high speed data-compatible phone. Where the wireless high speed data network is available and a wireless high speed data-compatible phone is used, Customer Lines will first attempt to connect to the Sprint 4G Network, then the Sprint 3G Network, and then will default to the Nationwide Sprint Network depending on coverage and network availability. Direct Connect and Group Connect are available on select devices.

Customer Lines must primarily be used for Domestic purposes within the coverage area of the Nationwide Sprint Network. As used herein, "Domestic" means use in the 50 United States and U.S. Territories (except Guam). Business Plans that include Roaming ("Roaming Included Plans") are not available with single-band phones or to users who reside or whose primary use is outside an area covered by the Nationwide Sprint Network. Sprint may limit or terminate Service if a Customer Lines move outside of the area covered by the Nationwide Sprint Network. Sprint may, with notice to the Customer, deny, terminate, modify, disconnect or suspend Service to a Customer if Roaming in a given month exceeds: (1) a majority of minutes, or (2) data: 100 megabytes for a Business Plan/month in total. Sprint will notify the Customer of any alleged infraction by users of the Services prior to an adverse action being taken against a user. If a user needs to utilize more than the permitted 300 MB/month of data in a roaming area, the user may contact Sprint prior to the usage activity. International calling, including in Canada, Mexico, and Guam, is not included in Roaming Included Plans. Wireless data Services and certain calling features (voicemail, caller ID, call waiting, etc.) may not be available while Roaming. Roaming areas may change and Roaming may not be available everywhere. Roaming may not be available on the Sprint 4G Network.

#### **SPRINT CONNECTICUT CHOICE VALUE PLAN**

The Sprint Connecticut Choice Value Plan will offer Customer Lines the following features:

- 400 Anytime Minutes with a nominal Anytime Minute Overage Charge
- Unlimited Sprint Mobile-to-Mobile
- Unlimited Nights and Weekends beginning at 7PM
- Unlimited Direct Connect® and Group Connect®
- Nationwide Long Distance Included
- Caller ID and Voicemail Included
- Unlimited Internet Browsing and E-mail Included
- Unlimited Messaging
- Premium Data Add-On Included
- Data Roaming is an additional per KB charge
- Shared Minutes not available

Customer Lines activated on the Sprint Connecticut Choice Value Plan may upgrade their device after 20 months of continuous service. Wireless high speed data coverage is not available everywhere and requires a wireless high speed data-compatible phone. Where the wireless high speed data network is available and a wireless high speed data-compatible phone is used, Customer Lines will first attempt to connect to the Sprint 4G Network, then the Sprint 3G Network, and then will default to the Nationwide Sprint Network depending on coverage and network availability. Direct Connect and Group Connect are available on select devices.

#### **ACCEPTABLE USE POLICY**

Sprint hereby provides notice to the Customer that Sprint has an Acceptable Use Policy that ensures the protection of Sprint's Network for its customers. In the event Sprint, at its sole discretion, determines a Customer Line is engaging in illegal or harmful use that cause network degradation, Sprint will formally notify the Customer and request that such use be discontinued. If the Customer Line, after formal notification is given, continues to engage in illegal or harmful use that cause network degradation, Sprint will notify the Customer Line of its intent to modify or throttle the Customer Line's wireless data Service which may also include suspension of service. If the Customer Line still continues to engage in illegal or harmful use, Sprint will modify, throttle, or suspend service as applicable.

#### **SERVICE AVAILABILITY/LIMITATIONS:**

**Voice Coverage Surrounding Hartford, CT**

**Voice Coverage Surrounding New Haven, CT**

**Voice Coverage Surrounding Bridgeport, CT**

**Voice Coverage Legend:**

-  Sprint coverage
-  Sprint coverage - signal strength varies
-  Off-network roaming
-  No coverage

**Data Coverage Surrounding Hartford, CT**

**Data Coverage Surrounding New Haven, CT**

### Data Coverage Surrounding Bridgeport, CT

#### Data Coverage Legend:

-  **Sprint Spark™**  
Sprint Spark enhanced LTE available only on select devices.
-  **Sprint 4G LTE**  
Sprint Spark devices can also use 4G LTE.
-  **Sprint 3G & more**
-  **Off-network roaming**
-  **No coverage**

**NOTES:**

VENDOR NAME: <b>Nextel Communications</b>										
SERVICE NAME: <b>Wireless Service and Equipment: Service</b>										
Activity (Add, Delete, Change)	Date of Vendor Request	Date Approved By DAS	Item	Item Code	Description of Service/Equipment	Unit	Non-Recurring Cost	Monthly Recurring Charge	Monthly Cost (with CT State 25% discount - Applies to Basic Monthly Recurring Charge)	Per Unit Cost (Usage)
Note A					Usage will be billed at the current international rate for the appropriate country, not to exceed \$12 per minute					
Note B					Overage billing will only be paid by the State when Sprint provides detail billing that enables the State to validate the contract rate.					
Note C					Android device plans are only allowed on Android devices ordered thru DAS/BEST/Telecom.					
Note D					Tablet plans are combined 3G/4G data and as follows. 1) 300mb On Network - \$.05/MB overage rate and 100mb Off-Network - \$.25/MB overage rate , 2) 3GB of on-network data (additional data: \$.05/MB) and 100MB of off-network roaming data (additional data: \$.25/MB). 3) 6GB of on-network data (additional data: \$.05/MB) and 300MB of off-network roaming data (additional data: \$.25/MB). 4) 12GB of on-network data (additional data: \$.05/MB) and 300MB of off-network roaming data (additional data: \$.25/MB).					
Note E					The 5,000 unit counts for "lines managed" is a compilation of all the units activated under the Executive, Legislative and Judicial branches of the State of Connecticut (CL=Commitment Level)					
Note F					Unlimited use available while on the Sprint network. Sprint's Acceptable Use Policy applies if such Wireless Data Connection Device exceeds 5GB/month of data usage, 100 MB/month of usage while Roaming on the Sprint network. See reference to Acceptable Use Policy in Description Document.					
Note G					Sprint's Acceptable Use Policy applies if a wireless Product engages in any prohibited data uses or if Sprint, in its sole discretion, determines action is necessary to protect the Sprint Networks or Sprint 4G Network from harm or degradation. Sprint wireless data Services may not be used: (a) to generate excessive amounts of Internet traffic through continuous, unattended streaming, downloading or uploading of videos or other files or to operate hosting services including, but not limited to, web, or video surveillance; (b) to maintain continuous active network connections to the Internet such as through a web camera or machine-to-machine connections that do not involve active participation by a person; (c) to disrupt email use by others using automated or manual routines, including, but not limited to, "auto-responders" or cancel bots or other similar routines; (d) to transmit or facilitate any unsolicited or unauthorized advertising, telemarketing, promotional materials, "junk mail", unsolicited commercial or bulk email, or fax; (e) for activities adversely affecting the ability of other people or systems to use either Sprint's Wireless Services or other parties' Internet-based resources, including, but not limited to, "denial of service" (DoS) attacks against another network host or individual user; (f) for an activity that connects any device to personal computers (including, but not limited to, laptops), or other equipment for the purpose of transmitting wireless data over the Sprint Networks or Sprint 4G Network (unless Customer is using a plan designated for such usage); (g) by a Wireless Data Connection Device in excess of: (i) the total data usage allowed by Customer's plan, (ii) 100 MB/month while Roaming in total, or (iii) a majority of kilobytes while Roaming; provided that Customer's Wireless Data Connection Devices on "unlimited" Business Plans will not be subject to the Data Services limitation but are subject to the Roaming limitations; or (h) for any other reason that, in Sprint's sole discretion, violates Sprint's policy of providing Service for individual use. See reference to Acceptable Use Policy in Description Document.					
Note H					The data Services overage charges set forth in the table above apply only to tablets compatible with the Sprint 4G LTE Network. Tablets compatible with the Sprint 4G LTE Network are not eligible for wireless device discounts, service credits or rebates, but may be eligible for certain promotions, which will be identified in the Product Schedule.					
Note I					The Data Roaming limitation is 100MB. The combined Data Roaming usage from both the device and Mobile Hotspot contributes to the Data Roaming limitation. All data usage (device and Mobile Hotspot) will count against the Sprint Mobile Hotspot Add-On Data Services limitation when the Mobile Hotspot functionality is turned on.					
Note J					Wireless high speed data coverage is not available everywhere and requires a wireless high speed data-compatible phone. Where the wireless high speed data network is available and a wireless high speed data-compatible phone is used, Customer Active Units will first attempt to connect to the Sprint 4G Network, then the Sprint 3G Network, and then will default to the Nationwide Sprint Network depending on coverage and network availability. Direct Connect and Group Connect are available on select devices.
