State of CT PC peripherals ordering system overview:

For more information and downloads, please use this link:

<http://www.ct.gov/doit/cwp/view.asp?a=2296&q=303116>

As a result of a bidding process by DOIT, three vendors are currently under contract to provide computer peripherals for the State:

Corporate Computer Services, Inc. (CCSI): www.ccs-usa.com

New England Solutions Systems (NESS): www.interness.com

CDWG: www.cdwg.com/ctdoit

Agencies will be able to order computer peripherals via these vendors' websites, or by phone, fax, or mail from these vendors. On the websites, a "market basket" approach conveniently allows browsing and ordering of peripheral products, in the categories covered by the contract. The Internet-based ordering system provides a secure, hierarchical-based approval process, to ensure that orders are approved according to agencies' internal business rules, and that orders are fiscally responsible. The entire process is administered at DOIT, through central contacts at the agencies.

How to establish a user account on the state peripherals ordering websites:

Contact the "central peripherals contact" for your agency. This is usually someone in the business office, or purchasing office for your agency. Or, you may call the peripherals ordering system administrator at to find out who has been identified as your central contact.

The process of creating, deleting, or modifying user accounts at each agency is always coordinated through the central contact person, and begins with the Role Assignment Forms. Once the forms are submitted to DOIT, the administrator at DOIT then creates user accounts, enabling access to the peripherals website(s).

For further info:

Please see Contract Award #05ITZ0076 for details.

If you have questions regarding the contract details, would like to provide feedback on vendor performance, have questions regarding user accounts or using the vendor websites, please contact the peripherals administrator, Elizabeth Basso (860) 622-2037, email: elizabeth.basso@ct.gov
