HOW DOES THE PRODUCT NUMBER SYSTEM WORK?

The McKay range of accessories are available for many different radio platforms. Our product numbers are broken up into two components:

- 1) The Accessory Type; eg **2PR** (*Ear hook with Lapel PTT/Microphone*)
- 2) The Connector Type; eg **3001** (*Motorola YODA Connector, Two Pin*)

3) For pricing purposes these have been broken up into a further four categories. When looking for the correct price refer to the pricing code that is applicable to your selected connector type. When ordering please quote the connector type number eg 3001. A quick guide of Connector Type vs. Pricing Code is below;

| Pricing Code | Connector Suffix |
|---------------------|--|
| Type A | 3001, 3002, 3003, 3103,3203,3303, 3004, 3005, 3008, 3009, 4001, 4002 |
| Type B | 3101, 3111, 3102, 3603 |
| Type C | 3122, 3202, 3104, 6003 |
| Type D | 2.5, 2.5F, 2.5MTH, 2.5S, 3.5, 3.5S, 3.5SC |

Receive Only Headsets and Earpieces (1)

Part Number 1RX-3.5

Single Wire Surveillance Kits (1)

Part Number 1SM-3001
Copyright 2004, McKay Associates Pty Ltd

1SM—Regalis Jnr

The model 1SM covert microphone works on bone conduction technology. With the same style of PTT used on our 2PR and other single wire kits, it has great tactile feel and will last a lifetime. The ear microphone has a combined speaker and microphone that works from the ear canal, no batteries are required. This is great for covert applications where only a whisper needs to be clearly heard. It can also be combined with hearing protectors for a great high noise area accessory. These are especially popular for Police, Special Forces and applications where a Breathing Apparatus may be used.

Unit Price:

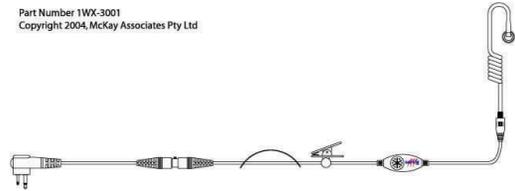

Type A, \$ 107 .50

Type B, \$ 129 .00

Type C, \$ 136 .25

Headset Only, No Radio Connector \$ 75.50

Part Number 1WX-3001
Copyright 2004, McKay Associates Pty Ltd

High Noise Headsets (1)

Part Number, 6AVBH-3001
Copyright 2004, McKay Associates Pty Ltd

6AVOH

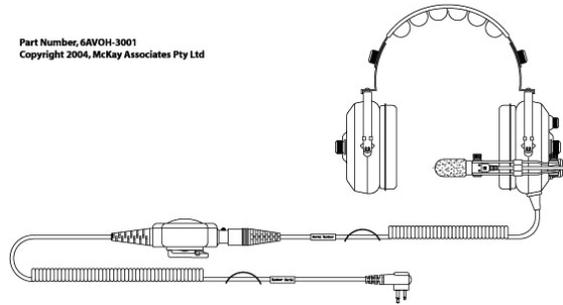

The model 6AVBH is a Behind-The-Head fitting model McKay headset. It utilises an active noise cancelling microphone. The ear muffs have been fitted with acoustic foam that effectively reduces unwanted background noise when used in high noise areas. For attenuation characteristics please contact us. The unique design allows this model to be used with our WPTT Push-To-Talk assemblies for a wide range of popular two way radios. It is also compatible with our aviation leads. This is easily achieved by removing one lead and replacing it with another. This is especially convenient for organisations using the same headset on a range of portable, or for the aviator switching

Unit Price:

Type A, \$ 340 .25
Type B, \$ 361 .75
Type C, \$ 369 .00

Headset Only, No Radio Connector \$ 276 .00

Warranty

McKay Communications Inc. makes the following warranty to purchasers of McKay products who buy direct from McKay or from one of its authorized resellers. McKay warrants that for a period of 12 months from the date of purchase, its products will meet the nominal performance criteria stated in McKay's printed publications and proposals and will be free of defects in material and workmanship. If a warranty claim is correctly submitted, McKay will replace the McKay product at the time of the claim at McKay's sole option if the product is deemed defective. Replaced product must be returned to McKay's for inspection by McKay technicians. When returned if the product is deemed not to be a failure due to defects in material and workmanship all replacement costs will be invoiced as per standard terms. *This warranty is voided if any repair or replacement is made or attempted on any McKay product by anyone other than authorized McKay personnel without prior written consent, if the product has been altered by a customer, or if there has been any misuse or misapplication of the McKay product, McKay's only liability under its warranty is stated above.*

McKay makes no warranty(1) to anyone who purchases or acquires any McKay product from any source other than McKay or its authorized resellers, (2) to anyone who purchases, acquires or uses any other manufacturer's product in which any McKay product is a component, (3) or any other manufacturer's products as a component in any McKay product. McKay shall not be liable for any incidental or consequential damage caused by the non-conformance of any McKay product with this warranty.

THERE ARE NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THOSE OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE

RETURN PROCEDURE

To return product to McKay Communications Inc.

- A. Find the serial number on the product, the invoice number, or the date of purchase
- B. Call McKay Communications on (860) 808 1276 or email office@mckayheadsets.com to obtain a 'Product Return Advice' form. This form must be fully completed with the failure mode experienced.
- C. Indicate that the goods are to be returned to the 'Service Department' on the outside of the box and any paperwork. International returns must include the words 'Un-Serviceable Goods Returning—Not Dutiable on the paperwork and label.
- D. Ship the product to McKay Communications 38 New Britain Ave Rocky Hill, CT 06067

NOTES :

Dealer Pre-Testing of Equipment

We strongly recommend that all dealers test customer product before returning to McKay. If the McKay Technicians are unable to duplicate the stated failure mode, the product will be returned to the dealer.

Warranty vs Non-Warranty

If the failure mode is determined to be a warranty issue (due to materials, workmanship or failure to meet printed specifications), the product will be replaced at no charge. If the failure mode is determined to be a non-warranty issue the parts will be returned to the customer along with a Failure Analysis report

Repair Service

McKay Communications provides repair service for selected product. Contact us for further information
