Subject: Reconstruction of Old Farms Road, Avon

Hello Mark

Our review indicates that the area surrounding the proposed reconstruction of Old Farms Road in Avon is designated as Conservation area and aquifer protection area. Based on the information provided in the monitor, OPM has following comments:

- Identify existing alignment and the proposed new alignment.
- Will the width of the reconstructed road be expanded to accommodate additional traffic volume?
- Which land use objectives of the Town will be addressed by this reconstruction? For example, is new development anticipated?
- How long will the reconstruction last and how will the disruption of traffic in that area be handled?

Let me know if you have any question. Thanks.
