Connecticut Fire Academy

Fire Officer Training

The Connecticut Fire Academy in cooperation with the National Fire Academy present three companion courses through the National Fire Academy's off campus deliveries program.

**Emergency Response to Terrorism:  
Strategic and Tactical Considerations for Supervisors**

February 26 and 27, 2011 Course # 11266

This updated two day course is designed for the responder (s) who may be responsible for initial and expanded command of incidents involving terrorism. The course is intended to build upon the students' existing skills as an Incident Commander (IC), a practitioner of ICS, with knowledge of NIMS, the National Response Framework, and terrorism. The class will assist the officer in preparing an effective response to the consequences of terrorism. IC's must be prepared to operate as part of a multiagency, multidiscipline, and multijurisdictional response. The course utilizes lecture supported by case studies and practice scenarios to address the command and control challenges that likely will confront the IC. This will enable the students to apply their knowledge of pre-incident planning, managing emergency incidents, and operating as part of a Unified Command structure to ensure the safety of responders while bringing the incident to a successful conclusion.  
Class Hours: 16 FM Credit: 4 Course Fee: \$60.00

**Managing in a Changing Environment**

May 14 and May 15, 2011 Course # 11267

This two day course is the second of two courses on midlevel management covering the skills and techniques midlevel managers will need to provide leadership and direction for their departments. Content includes and overview of significant economic, social, political, and technological influences affecting fire service operations. Students will have the opportunity to identify and relate these influences to their personal and professional situations; and to practice strategies for managing changes resulting from those influences.  
Class Hours: 16 FM Credit: 4 Course Fee: \$60.00

**Shaping the Future**

Sept 10 and Sept 11, 2011 Course # 12038

This two day course is the first of two courses on midlevel management covering the skills and techniques midlevel managers will need to provide leadership and direction for their departments. The first module focuses on identifying opportunities and/or problems. Topics include environmental scanning, paradigm shifts, and methods for reframing problems accurately. The second module deals with group problem-solving techniques. The third module explains the need to quantify, justify, and communicate decisions so they will be implemented effectively. Managing change will be discussed in the final module. Topics include people who resist change, overcoming that resistance, and monitoring and evaluating the change before, during, and after implementation.  
Class Hours: 16 FM Credit: 4 Course Fee: \$60.00

Students attending any or all of these classes will receive a Connecticut Fire Academy and a National Fire Academy certificate for each completed class. All classes will be held at the Connecticut Fire Academy 8:30 a.m. — 4:30 p.m.
