

NOTICE TO ALL CERTIFICATION CANDIDATES

Reading the Relevant Data and Information:

To insure confidentiality, a format has been designed for quickly “looking up” score results. At the top of each page is the date and location of the written examination. In the columns below the heading are test score results and the Certification Candidate’s four-digit Identification number. If the Certification Candidate participated in a multi-level examination (Trench I/II) or a combination examination (Fire Fighter I HM/WMD Awareness and Operations Level), there are several columns with the designated heading and scores. In either situation to successfully complete the entire examination ALL scores must be at least 70% or greater (further explanation below).

General Information: Written Examination Results and Retesting

Scores listed in this document are provided in a confidential format (e.g., Student four-digit ID#).

Effective April 1, 2011 to assist in the re-examination process, the Certification Division will start sending out re-examination applications to those candidates who fail any portion of a certification examination as soon as possible after the results have been scanned through the computer. Candidates who have failed any portion of an examination will not have to wait the 6-8 week processing timeframe. Those candidates who do pass all requirements for a Certification level will still reside within the 6-8 week processing timeframe. Candidates who do not show up for a scheduled examination will have to wait the 6-8 week processing timeframe to receive paperwork to reschedule.

Retesting Reminders:

Certification Candidates who fail any component of the Awareness and Operations level Hazardous Materials/Weapons of Mass Destruction (HM/WMD) written examination as it applies to Fire Fighter I certification are not eligible for Fire Fighter I certification until all components of the Awareness and Operations Level HM/WMD are attained.

Certification Candidates who fail any component of the Fire Fighter I, Fire Fighter I and II or Fire Fighter I/II levels are not eligible for Fire Fighter II certification until all components of the Fire Fighter I level, including the Awareness and Operations Level Hazardous Materials/Weapons of Mass Destruction, are attained.

Certification Candidates who fail any level of a multi-level written examination (e.g., Rescue Technician: Trench I/II) are not eligible for certification until all components for all levels are attained.

Eligibility Period:

To be re-examined in any State of Connecticut certification written examination within twelve (12) months of the date of the Lead Instructor’s signature on the original certification application does not require re-examination of the practical skills portion. Once the 12-month period has lapsed, the individual shall be required to retake the applicable training course before the certification application process can be activated. (Due to the nature of its practical examination, the Fire Officer IV level has a 24-month eligibility period.) There is no extension to these eligibility periods.
