**[THIS IS NOT A TACTICAL TRAINING COURSE](#)**

Given today's ever-changing threat environment, preparing for and training employees to cope with workplace violence should be a key piece of an organization's incident response planning.

#### **A Unique Training Opportunity**

Eversource Energy and the National Protection and Programs Directorate Office of Infrastructure Protection within the U.S. Department of Homeland Security are hosting a one-day Security Workshop to enhance awareness of, and response to, an active shooter event:

- Educating participants on the history of active shooter events;

- Describing common behavior, conditions, and situations associated with active shooters; and
- Fostering communication between critical infrastructure owners and operators and local emergency response teams. This course includes discussions of interoperability, communications protocols, and best practices for planning, preparedness, and response.

### **Building Emergency Planning Capabilities**

The event will also describe how to incorporate key elements of successful incident management into planning efforts including:

- Communicating with and accounting for employees;
- Building familiarity with local responders and knowing their capabilities;
- Coordinating with first responders before, during, and after an incident; and
- Integrating public affairs into incident management.

### **Registration**
