

# 2011 SEMINAR

CONNECTICUT FIRE ACADEMY COURSE  
CALENDAR 2011  
WWW.CT.GOV/CFPC

## CONNECTICUT FIRE ACADEMY ANNOUNCES THE 2011 SEMINAR SERIES

Keynote speakers will provide high quality presentations designed to expand the knowledge of all responders, consequently making emergency incidents safer. Register today or look for specific flyers announcing each presentation.

You can attend any one or all of the seminars.

### SEMINAR SERIES - Connecticut Fire Academy

---

All held at Connecticut Fire Academy

#### **It's in the Basement**

Lieutenant John J Lewis Passaic, NJ Fire Department  
and Chief Robert G Moran Englewood, NJ Fire  
Department  
Friday February 25, 2011  
Course number 11252  
Fee \$55.00

#### **Fire Smoke and Cyanide: Truth and Treatment**

James Augustine, MD Cyanide Poisoning Treatment  
Coalition  
Friday April 15, 2011  
Course number 11253  
Fee \$55.00

### 2011 Fire Service Instructor Development Seminar

---

#### **Buildings on Fire 2011: Tactical Renaissance and the New Rules of Combat Fire Engagement**

Christopher J Naum, SFPE Chief of Training Command  
Institute Washington, DC  
Saturday April 30, 2011  
Course number 11259  
Fee \$55.00

#### **Emergency Operations Involving Hybrid and Electric Vehicles**

Lieutenant Jason Emory Waterbury Fire Department  
Friday June 10, 2011  
Course number 11263  
Fee \$55.00

#### **Garden Apartment Buildings: Modern Day Fire Problem and Truck Company Roof Operations**

Lieutenant Thomas Donnelly FDNY  
Friday August 19, 2011  
Course number 12053  
Fee \$55.00

#### **Modern Suburban Firefighting**

Captain Bill Gustin Miami Dade, FL Fire Rescue  
Friday October 21, 2011  
Course number 12054  
Fee \$55.00

#### **Developing a Risk Management Program for Emergency Vehicle Driving**

Lieutenant Mike Wilbur FDNY  
Friday December 16, 2011  
Course number 12055  
Fee \$55.00

## CONNECTICUT FALLEN FIREFIGHTERS MEMORIAL

Located on the grounds of the Connecticut Fire Academy in Windsor Locks, stands the Connecticut Firefighters Memorial dedicated to Connecticut Firefighters who have lost their lives in the line of duty.

The Memorial was first envisioned in 1992 with the establishment of a Memorial Committee by the Connecticut State Firefighters Association. A ground

breaking was held on June 12, 2001. The Memorial is the first of its kind in the state honoring Connecticut Firefighters who gave the ultimate sacrifice with more than 300 names engraved in the granite panels that surround the Memorial.

The design of the Memorial was conceived by the Connecticut Firefighters Memorial Committee

incorporating a plaza-like setting, featuring a brick patio in the form of the Maltese Cross, the universal symbol of the fire service. The centerpiece of the Memorial is a six foot by twelve foot polished impala black granite stone bearing the likeness of four firefighters fighting a blaze; Lieutenant Paul Walsh of the New Britain Fire Department designed the artist's rendition of the firefighters. The centerpiece rests upon a base of concrete and gray granite to which are affixed plaques with the engraved names of those who have lost their lives. The plaques are numbered with roman numerals to ease the task of locating names. Atop the base, in front of the centerpiece is an eternal flame to acknowledge and honor this group of brave and noble firefighters. Surrounding the centerpiece are eight granite sitting benches representing the eight counties in Connecticut.

As Governor, M. Jodi Rell played a major role in the fundraising efforts that concluded with the unveiling of the \$250,000.00 Memorial. The Memorial was dedicated on August 18, 2002. In her keynote address, then Lieutenant Governor Rell spoke on the value of having a permanent place for honoring Connecticut's fallen firefighters. She applauded the many dedicated firefighters, residents and others whose contributions allowed the construction of this beautiful Memorial.

To make a donation to the Connecticut Fallen Firefighter Memorial or to purchase a walkway brick, go to [www.ct.gov/cfpc](http://www.ct.gov/cfpc) and click on Fallen Firefighter Memorial in the center of the page.

For a fire chief, firefighting skills are no more important than people building skills. Firefighters spend 2% of their time fighting fires. They spend 98% in preparation and training. Your ability to train, motivate, and lead your officers and firefighters makes the difference between an average and an outstanding firefighting force. The Connecticut Fire Academy offers an analysis of your personal style of communicating with people both normally and under stress. An independent consultant from "New Image Associates" will debrief you after responding to two online survey instruments. The information you receive will help you understand yourself and why others react to you in the manner that they do. The consultant will then coach you to incorporate more effective methods to get your work accomplished through others. To upgrade your people development and leadership skills, contact Adam Piskura, State Director of Fire Training, and ask about the Connecticut Fire Academy's Leadership Development Program. Call 860-627-6363 x 272 today. It's not about the fire; it's about the people.

"I am looking forward to more Leadership Development sessions with our team here in Danbury. I am pleased with my progress and strongly believe all of us have shown improvement. I appreciate all you have done for us."

Deputy Chief, TJ Wiedl

"I feel we have an exemplary group of officers, firefighters, and staff here in Westport. Even so, the Leadership Development Program for Fire Officers from New Image Associates has made a notable difference in our cooperation and teamwork. It has also helped to advance the development of the future leaders of this department."

Chief, Chris Ackley

**CERTIFIED:** Course addresses National Fire Protection Association (NFPA) Professional Qualification System Standards for certification; additional examination required.

Certification examination reference materials may be found at [www.ct.gov/cfpc](http://www.ct.gov/cfpc) in the "Testing and Certification" section.

## APPARATUS PROGRAMS

### Advanced Emergency Vehicle Operation and Apparatus Safety

This course includes the material covered in the Basic Emergency Vehicle Operation and Apparatus Safety course. Additional modules include an analysis of the different types of braking systems, total stopping distances, the types of engine retarders and auxiliary braking systems and the problems these systems can cause for the emergency vehicle operator. The expansion of the "Safe Driving Technique" module includes a section on tanker operation and rollover prevention. The course concludes with case studies of actual emergency vehicle crashes involving fire and EMS vehicles wherein emergency vehicle operators and their crews have been seriously injured, killed and or arrested and charged as a result of improper driving techniques.

Class Hours: 8 Course Fee: \$35.00

### Aerial Operator

This six-day course meets NFPA Standard 1002 for the driver/operator section, which addresses aerial devices.

Instruction will be given on: aerial, tower ladders and articulating booms. Course content will prepare the student for the practical and written examinations for Aerial Operator certification. This course is designed for the driver/operator of aerial equipment. The course begins with road handling and moves on to apparatus placement, mobilization and stabilization, elevation, various aerial operations and apparatus readiness. It is required that each student has access to the manufacturer's reference manual for their department aerial device. This course alone is not designed to produce expert aerial operators. Students must apply the basics learned from this course with continued hands-on practical applications with apparatus in their department to build and maintain proficiency in aerial apparatus operations.

Full protective clothing (No SCBA) is required.

Training Prerequisites: Certified Firefighter I; proof must be submitted with the application.

Required Text: IFSTA Aerial Apparatus Driver/Operator Handbook, 2nd Edition  
Certification Examination Prerequisites: Certified Firefighter I, or member of a fire department on or before July 1, 1977 and legally licensed to drive emergency apparatus. Proof must be submitted with the application. Candidates for certification to this level must be in possession of a Connecticut Driver's license with a "Q" Endorsement, a Class A or B Commercial Driver's license (CDL) or shall provide proof that the Driving/Operating requirements of NFPA Standard 1002, Chapter 4, have been satisfactorily completed.

Certification testing time: requires an additional date for the certification written exam.

Class Hours: 48 Course Fee: \$210.00

### Aerial Strategies and Tactics

This course will cover, in detail, the responsibilities of the aerial operator and will also explore some of the options available to the aerial operator in both emergency and non-emergency situations. Topics include: apparatus capabilities and

limitations, apparatus placement, stabilization practices, elevation and aerial safety. Students will review the major responsibilities of an aerial apparatus operator including factors and conditions which may affect aerial device operations.

Hands-on practical exercises will reinforce recommended safe practices in the areas of raising, rotating and extending an aerial device, ladder tip placement and aerial master streams.

Training Prerequisites: Certified Firefighter I; or have been a member of a Fire Department on or before July 1, 1977. Proof must be submitted with the application.

Class Hours: 16 Course Fee: \$65.00

### Basic Emergency Vehicle Operation and Apparatus Safety

The continued rates of emergency vehicle fatalities and serious injuries illustrate the fact that the emergency service community needs a basic program with regard to training drivers. This course defines the need for Emergency Vehicle Operator (EVO) training by identifying the scope of the problem. EVO defines needed qualities and discusses motivating the operators to drive safely. A module on legal issues, including definitions of legal terms such as liability, negligence and driving with "Due Regard" and how these issues arise in our daily occupational environment. All of the applicable Connecticut Statutes are reviewed as well as the current NFPA standards. The course explains vehicle dynamics and collision forces that need to be well understood by the emergency vehicle operator who is then taught several "safe driving" techniques to keep these forces in check. The "Safe Driving Technique" focuses on the need for proper vehicle inspection and maintenance procedures to be established and followed on a regular basis.

Class Hours: 4 Course Fee: \$25.00

### Basic Pump Operation

This course examines the components and controls used in the operation of a fire pump. The internal parts of a fire pump are examined with the goal of having the student fully understand how the fire pump moves water. Pump panel controls are discussed in relation to the specific function and use of each device. The process and specific functions involved in drafting and hydrant operations are explained in detail. Students will practice setting up for pumping operations. Participants will learn how to determine and overcome friction loss, how to calculate theoretical pump pressure and how to apply easy-to-use "rule of thumb" principles of relay pumping, operating handlines, supplying sprinklers and standpipe systems. On the training ground each student will apply practical applications while flowing water at prescribed pressures.

Full protective clothing (No SCBA) is required.

Training Prerequisites: Certified Firefighter I; or have been a member of a Fire Department on or before July 1, 1977. Proof must be submitted with the application.

Class Hours: 16 Course Fee: \$60.00

### Pump Operator

This course is designed to prepare the student for the practical skills and written examinations for Pump Operator certification. Class work will include: safe driving techniques, preventive maintenance, pump operations, hydraulic calculations, water supply and apparatus systems. The course begins inside the classroom and ends outside with pumping apparatus. The main emphasis is on "hands-on" exercises using various types of pumps, hose sizes and nozzles. This

course alone is not designed to produce expert pump operators. Students must apply the basics learned from this course with continued hands-on practical applications with apparatus in their departments to build and maintain proficiency in pump apparatus operations.

Full protective clothing (No SCBA) is required.

Training Prerequisites: Certified Firefighter I; proof must be submitted with the application.

Required Text: IFSTA Pumping Apparatus Driver/Operator Handbook, 2nd Edition; and the IFSTA Pumping Apparatus Driver/Operator Handbook Study Guide.

Certification Examination Prerequisite: Certified Firefighter I or a member of a fire department on or before July 1, 1977, candidates for certification to this level must be in possession of a Connecticut Driver's License with a "Q" endorsement, a Class A or B Commercial Driver's License (CDL) or shall provide proof that the Driving/Operating requirements of NFPA Standard 1002, Chapter 4, have been satisfactorily completed.

Certification testing time: requires an additional date for the certification written exam.

Class Hours: 48 Course Fee: \$210.00

### Q Endorsement

The Q Endorsement course is designed to prepare the potential fire apparatus operator for the testing requirements established by the State of Connecticut Department of Motor Vehicles. This training course will consist of classroom and extensive practical sessions conducted throughout the length of the course culminating with practical testing administered by the Department of Motor Vehicle on the final day of the class. Students should make arrangements to practice pre-trip and driving skills at their own firehouse during non-class hours to be more successful with the DMV administered test.

Topics covered in the classroom portion of the course include: testing requirements; inspection methods; speed and braking distances; night driving; driving and alcohol; emergencies; accidents; and air brakes. Topics covered in the practical portion of the course include: pre-trip inspection; static course; and over the road skills.

Training Prerequisites: Applicants must possess a valid operator's license. Proof must be submitted with application.

Class Hours: 32 Course Fee: \$200.00

### Tanker Shuttle Operations

This class is designed to make the student aware of the importance of pre-planning water sources and operations for rural water supply tanker transfers prior to the need arising. This course covers the following components: safe tanker operations, driving, filling and dumping; compare and contrast tanker design and efficiency; recognizing proper water sources; evaluating and developing proper dump sites; and organizing mutual aid for tanker task force concepts.

These components are met through the following course goals and objectives: identify apparatus requirements for a water shuttle; identify the requirements for setting up a shuttle operation; describe fill and dump site operations for a water shuttle; describe how to evaluate tanker performance; and demonstrate tanker operation in practical evolutions. On the final day of class students will incorporate information given and resources provided to supply a continuous 750 gallon per minute flow rate of water for a minimum of two hours.

Successful application of the course information may lead to the enhancement of the ISO rating for your community. Completion of this course allows for student to apply for "Tanker Operator" Certification if currently certified as a pump operator.

PPE Requirements: Full protective clothing (no SCBA)

Training Prerequisite: Certified Firefighter I; proof must be submitted with the application.

Certification testing time: requires an additional date for the certification written exam.

Certification Prerequisite: Certified Pump Operator; proof must be submitted with the application.

Class Hours: 16 Course Fee: \$90.00

## EMS Programs

### Emergency Medical Responder Refresher (EMR-R)

(formerly Medical Response Technician)

This course is designed to review and refresh knowledge and skills for currently certified Emergency Medical Responder, (formerly MRT) to introduce the changes in content and philosophy, and to emphasize the latest U.S. DOT First Responder

National Standard Curriculum.

Written and practical examinations will be conducted in conformance with policies established by the State of Connecticut Department of Public Health.

Training Prerequisites: Certified Emergency Medical Responder (EMR) or Medical Response Technicians (MRT). Proof must be submitted with the application.

Required Text: Brady First Responder 8th Edition

Class Hours: 16 Course Fee: \$150.00

### Emergency Medical Technician Refresher EMT-R

This course reviews and refreshes knowledge and skills required for Emergency Medical Technicians currently certified according to the latest U.S. DOT EMT-Basic National Standard Curriculum. Classroom and "hands-on" training will update the EMT on current practices and confirm skill levels. A review and renewal of Healthcare Provider CPR will be conducted in conformance with the latest JAMA standards through approved programs of the American Heart Association. Written and practical examinations will be conducted in conformance with the policies established by the State of Connecticut Department of Public Health.

Training Prerequisites: Certified Emergency Medical Technician (EMT). Proof must be submitted with application.

Required Text: Brady Essentials of Emergency Care Refresher for EMT-B 3rd Edition.

Class Hours: 28 Course Fee: \$200.00

## Firefighter Programs

### Advanced Rapid Intervention Team Skills

Safely removing a trapped or unconscious firefighter from a burning building is a labor-intensive operation. Advanced Rapid Intervention Team Skills is a one-day course where students will be able to affect such a rescue in our new RIT Simulator. The simulator adds smoke and heat to the scenarios and tests the

team's ability under actual fire conditions. Time will be allocated to reviewing advancements in RIT procedures and equipment. The skills application component is extremely rigorous and physically demanding.

Participants are required to bring full protective clothing, including SCBA with one spare cylinder.

Training Prerequisites: Applicants must have completed Rapid Intervention Training offered by the Connecticut Fire Academy proof must accompany application.

Class Hours: 8 Course Fee: \$100.00

### Carbon Monoxide and Heating System Emergencies

This course will cover the information needed by a fire department when responding to carbon monoxide alarms and to carbon monoxide present at the fire scene. Proper procedures to be used at heating appliance emergencies and chimney fires will also be covered. These routine fire responses may become a disaster if not handled properly. Topics include: identification and hazards of carbon monoxide, a description of the techniques for investigating alarms, investigating fossil burning appliances, and detecting the presence of carbon monoxide. Additional topics include: construction of chimneys, anatomy of chimney fires, extinguishment options, and firefighter safety.

Training Prerequisites: None

Class Hours: 8

FM Credit: 6 Course Fee: \$30.00

### Crew Resource Management- from the Flight Deck to the Firehouse

Following several tragic and preventable airline accidents, the aviation industry sought to find a way to reduce pilot error and reduce the airliner accident rate. The resulting program drastically reduced accidents and fatalities in commercial aviation, led aviation to become one of the safest industries in the world, and came to be known as Crew Resource Management. Now CRM has come to the fire service, and with it has come the potential to improve safety for firefighters the way the use of SCBA did a generation ago. This class, both through a review of how CRM works and case studies of selected airline accidents and firefighter Line of Duty Deaths, will introduce you to the potential of CRM and how adopting it can help you and your fire department to greatly improve the level of safety in our workplace.

Class hours: 4 Course fee: \$15.00

### Entry Level Firefighter Oral Interview Techniques

Have you ever wondered what you should wear, what to say or not say, how to act or how to succeed in an entry level oral interview? If so, this one-day course is for you. Based on information from instructors who sit on entry level oral boards on a regular basis, this course reviews how to prepare and present yourself to an oral panel. The program provides insight on what to expect, types of questions you may be asked and tips that will allow you to present yourself in the best possible light as you interview for a career firefighter position.

Class Hours: 8 Course Fee: \$15.00

### Firefighter Rehabilitation

Course delivery covers Introduction to Fire Service Rehabilitation, recognizing the need for on scene rehab, pre incident training and SOP/GOG requirements, on scene operations, and post incident monitoring. The beginning of the course

is classroom lecture, followed by practical sessions using the Connecticut Fire Academy rehabilitation trailer.

Class hours: 8 Course Fee: \$50.00

### Firefighter Safety and Survival

This course on firefighter survival training uses scenarios based on actual incidents to identify problems encountered, and offers possible solutions for members in life threatening situations. Self-rescue procedures, such as low profile ladder egress, and personal rope bail-out procedures will give the participant options if caught in a rapidly deteriorating situation.

Full protective clothing, including SCBA with one spare cylinder, is required.

Training Prerequisites: Firefighter I. Proof must be submitted with the application.

Class Hours: 16 Course Fee: \$95.00

### Flashover Survival

Flashover Survival begins with a classroom presentation followed by a simulation of a pending flashover in the Connecticut Fire Academy flashover simulator. The flashover simulator offers firefighters the opportunity to observe fire behavior and the signs of an impending flashover in a controlled setting. This training is an experience of a lifetime that could save your life. Students should bring a bottle of water or sport drink to re-hydrate throughout the training.

Participants are required to bring full protective clothing, including SCBA with one spare cylinder. Long pants are required to participate in the flashover live burns. Shorts alone are not acceptable.

The Connecticut Fire Academy will not be responsible for damages to PPE.

Training Prerequisites: Certified Firefighter I; proof must be submitted with the application.

A separate flashover permission slip is required at the time of registration.

Class Hours: 8 FM

Credit: 4 Course Fee: \$95.00

### Rapid Intervention Team - (RIT)

This is an intensive course on fire behavior and fire survival training. Using scenarios based on real-life incidents. The class identifies problems and offers possible solutions for the safe and efficient removal of members in distress. Safely removing a trapped or unconscious firefighter from a burning building is a labor-intensive operation. Methods of searching for a missing firefighter in a large open area will be covered.

Full protective clothing, including SCBA with one spare cylinder, is required.

Training Prerequisites: Firefighter I. Proof must be submitted with the application.

Class Hours: 16 Course Fee: \$95.00

### Recruit Firefighter

This 14-week resident course focuses on developing the knowledge, skills and abilities needed for a new firefighter to perform entry-level tasks under direct supervision. One of the first components of the course is to establish in the recruit a strong desire and will for self-discipline, teamwork, company morale, orderliness and precision. The fire department organizational structure will be defined showing the role and responsibility of the firefighter and the officer in the organization. The training for a recruit firefighter will consist of theory,

backed with appropriate skill development. The theory and practical skills development combination will be delivered on an incremental basis for maximum retention and skill development. This approach will develop competency in the recruit and reduce the risk of injury. Recruits will reside at the Connecticut Fire Academy weekdays throughout the course. At the conclusion of this course, the recruit firefighter will be tested to the Firefighter I and Firefighter II and Hazardous Materials – First Responder Awareness and Operational. After local orientation, the firefighter will be able to be assigned to a firefighting company. The course covers a broad range of topics that today's firefighter faces on a daily basis and includes: Daily Physical Fitness, Cultural Diversity, Employee Assistance Program, NIMS-700, Flashover, NIMS for the Fire Service, Calling the MayDay, So Your in the Front Seat Toady, Reading Smoke at Building Fires, Ground Fires, Thermal Imaging for the Fire Service, Basic Pump Operations, Basic Aerial Operations, Introduction to Fire Investigation, Elevator Rescue, Confined Space Rescue, MASS Decon Trailer Operations, Handling Utility Emergencies, Courage to be Safe, Firefighter Safety and Survival, Rapid Intervention Teams and Rescue Core.

The Recruit Firefighter training program at the Connecticut Fire Academy has been approved for veteran education benefits.

Course fee includes tuition, student manuals, lodging, breakfast and lunch.

PPE Requirement: Full Personal Protective Equipment with SCBA and 2 spare bottles.

Training Prerequisites: None

Class Hours: 644

Course Fee: \$5,775.00

## Traffic Incident Management

Course is designed to aid departments that are involved with managing traffic at emergency scenes. The program covers the roles of the emergency responder in traffic control, state statutes, required training, communication guidelines, personal protective clothing and traffic control equipment, determining traffic control zones and practical exercises. Meets or exceeds Manual on Uniform Traffic Control Devices Chapter 6.

Maximum class size: 20.

Training Prerequisite: ICS 100, 200, 700. Must be an active member of a fire department, CERT team, or emergency medical service. Proof must be submitted with application.

Class Hours: 8

Course Fee: \$45.00

## Fire Officer Programs

### Building Construction: Combustible

This National Fire Academy course provides an introduction to basic construction principles and to the specific characteristics of combustible construction as it pertains to the fire service. The primary emphasis of this course is to improve the firefighter's ability to ensure personal safety by recognizing common causes and indicators of failure or other hazards related to building construction. An understanding of the course material, will improve operational effectiveness, as the firefighter will be able to better predict the overall reaction of a building to fire conditions. Participants will receive a Connecticut Fire Academy and National Fire Academy certificate of attendance

Training Prerequisites: None

Class Hours: 16

FM Credit: 12

Course Fee: \$60.00

### Building Construction: Non-Combustible

This National Fire Academy course provides an introduction to the special characteristics of non-combustible and fire-resistive construction as they pertain to the fire service. The primary emphasis of the course is to improve the firefighter's ability to ensure firefighter safety by recognizing common causes and indicators of failure and other hazards related to building construction or contents. An understanding of the course material will improve operational effectiveness, as the firefighter will be able to better predict the overall reaction of a building to fire conditions. Participants will receive a Connecticut Fire Academy and National Fire Academy certificate of attendance.

Training Prerequisites: None

Class Hours: 16

FM Credit: 12

Course Fee: \$60.0

### Fire Officer I

Fire Officer I is a comprehensive course designed to strengthen the new or aspiring fire officer's supervisory and leadership skills. Emergency and routine duties of the company officer will be discussed. Oriented to the level of Lieutenant, topics covered in this course include: human resource management, community and government relations, public education, safety, inspection and investigation and emergency service delivery. Students will spend limited time in a fire command simulator during the emergency service delivery section of the course.

Training Prerequisite: Certified Fire Service Instructor I.

Required Text: Jones and Bartlett: Fire Officer, Principles and Practices 2nd Edition.

Certification Examination Prerequisites: Certified Fire Service Instructor I. Proof must be submitted with the application.

Certification testing time: requires an additional date for the certification written exam.

Class Hours: 96

Fire Marshal Credit: 33

Course Fee: \$300.00

### Fire Officer II

This course is designed for those fire officers or aspiring officers that need the skills to supervise multiple companies. Generally, this level involves the management of company supervisors involved in the operational aspects of a fire station. Oriented to the level of Captain, topics covered in this course include: group behavior, employee evaluation, communication skills, report preparation, pre-fire and operational planning, inspections, command of hazardous materials incidents, safety and emergency services delivery. Students will spend limited time in a fire command simulator during the emergency service delivery section of this course.

Training Prerequisites: Fire Officer I.

Required Text: Jones and Bartlett: Fire Officer, Principles and Practices 2nd Edition.

Certification Examination Prerequisites: Certified Fire Officer I and Certified Fire Service Instructor I. Proof must be submitted with the application.

Certification testing time: requires an additional date for the certification written exam.

Class Hours: 80

Fire Marshal Credit: 45

Course Fee: \$300.00

### Fire Officer III

Organizational Administration is a non-traditional course offered to individuals currently holding or approaching the rank of shift commander or chief officer. It is designed to enhance the skills of the chief officer by providing a group of peers with a progressive learning environment. This semi-independent study course includes a balance of regularly scheduled peer group discussion sessions and development of individual written projects. Oriented to the level of Shift Commander, topics covered in the discussions and projects will include human resource management, community relations, administration, inspection and investigation, emergency services delivery and safety. In order to project a professional image in the classroom students should wear appropriate attire or their department daily uniform.

Training Prerequisites: Applicants must either be currently certified to the level of Certified Fire Officer II and Fire Service Instructor II (Proof must be submitted with initial application) or have served as a chief officer for at least three (3) years.

Applicant Selection Procedure: This program is open to all current shift commanders and chief officers, holding Fire Officer II and Fire Service Instructor II certification. Applicants not currently holding a training or chief officer title may be admitted to the program if they are currently a Captain and provide a letter from their chief stating that they are either currently functioning at the level of Shift Commander or are expected to assume that role within the next three (3) years.

The process of applying for this program requires the following:

1) Completion of the standard Connecticut Fire Academy course application paperwork.

2) Completion of a supplemental application and submitting a résumé.

Upon completion of these items, the Connecticut Fire Academy Program Manager for the Fire Officer Programs and at least one Fire Officer III instructor will review the applications and select up to fifteen individuals to participate in the program.

A supplemental application and résumé will be required from each officer applying to the Fire Officer III program. The supplemental application and résumé submitted will be used to make a final determination as to whether or not they will be admitted to the class.

Applicant Selection Procedure:

While every attempt will be made to select a cross-section of participants, priority will be given in the following order:

1) Applicants currently serving in the capacity of Training Officer, Shift Commander or Battalion Chief.

2) Applicants currently holding the rank of Captain.

Required Text: The reference books used for this course will be the current edition of the IFSTA Chief Officer.

Certification Examination Prerequisites: Certified Fire Officer II and Certified Fire Service Instructor II. Proof must be submitted with initial application. Certification will be achieved through a combination of project process assessments, oral and written examinations.

Certification testing time: requires additional time for the oral examination panel.

Class Hours: 72

Fire Marshal Credit: 45

Course Fee: \$325.00

## Fire Officer IV

This semi-independent study course consists of a balance of regularly scheduled peer group discussion sessions and the development of individual projects. Areas covered in the discussions and projects will focus heavily on human resource management, administration, multi-agency emergency services delivery and safety. Oriented to the level of Assistant Chief, Deputy Chief or Chief, topics covered in this course include: grievance administration, training and educational goal setting and planning, employee assistance programs, incentive programs, community event planning, long-range planning, and civil disturbance and disaster planning. In order to project a professional image in the classroom, students should wear appropriate attire or their department daily uniform.

Training Prerequisites: Certified Fire Officer III or have served as an Assistant Chief, Deputy Chief or Chief for at least three (3) years.

Applicant Selection Procedure: This program is open to all current shift commanders and chief officers, holding Fire Officer III certification.

The process of applying for this program requires the following:

1) Completion of the standard Connecticut Fire Academy course application paperwork.

2) Completion of a separate information statement/supplementary application. Upon completion of these items, the Connecticut Fire Academy Program Manager for the Fire Officer Programs and at least one Fire Officer IV instructor will review the applications and select up to fifteen individuals to participate in the program. Applicants not currently holding the rank of Training Officer, Assistant Chief, Deputy Chief or Chief will be required to provide a letter from their chief stating that they are either functioning at the level of Assistant Chief or Deputy Chief level or are expected to be promoted to either of those ranks within the next three (3) years.

While every attempt will be made to select a cross-section of participants, priority will be given in the following order:

1) Applicants currently serving in the capacity of Assistant Chief, Deputy Chief or Chief.

2) Applicants currently serving in the capacity of Shift Commander, Training Officer or Battalion Chief.

Required Text: The reference books used for this course will be the current edition IFSTA Chief Officer and Fire Department Strategic Planning by Mark Wallace, Published by Pennwell Fire Engineering.

Certification Examination Prerequisites: Certified Fire Officer III; proof must be submitted with the application. Certification will be achieved through a combination of project process assessments, oral and written examinations.

Certification testing time: requires additional date for the oral examination panel.

Class Hours: 48

Fire Marshal Credit: 5

Course Fee: \$325.00

## Fire Service Instructor I - Instructional Methodology

This course is designed to meet the first level of instructor as identified in the NFPA 1041 standard. Topics covered during the course include: adult learning and communication, understanding performance objectives, evaluation, and methods of instruction. Students will present from a prepared lesson plan. Study and support materials are online. Access to a computer with internet access is mandatory. Homework assignments and formative assessments will be completed and submitted online.

Successful completion of this course will prepare the student to take the Fire Service Instructor I Practical Skills and Written Certification Examinations.

Maximum class size: 16

Training Prerequisites: Certified Firefighter II. Proof must be submitted with the application.

Required Text: Jones and Bartlett Fire Service Instructor: Principles and Practice, 1st Edition

Certification Examination Prerequisites: Certified Firefighter II; or have been a member of a Fire Department on or before July 1, 1977. Proof must be submitted with the application.

Certification testing time: requires an additional date for certification written exam.

Class hours: 56

FM Credit: 32

Course Fee: \$300.00

## Fire Service Instructor II/III Curriculum Development and Instructional Leadership

This course is designed to meet the second and third levels of instructor as identified in the NFPA 1041 standard. Topics covered include: management of instructional resources, development of instructional materials, conducting classes and supervising instructors, administration, records, policy, personnel, analysis, evaluation, program and curriculum development. Candidates will present from student developed lesson plan. This is a blended learning course. Instructional Leadership requirements will be completed online. Access to a computer with internet access is mandatory. Study and support materials are online.

Successful completion of this course will prepare the student to take the Fire Service Instructor II Practical Skills and Written Certification Examinations and the FSI-III Written Certification Exam.

Class Hours: FSI-II 48 hours. Candidates will have 90 days to complete FSI-III requirements.

Maximum class size: 16

Training Prerequisites: Certified Fire Service Instructor I and Station Evaluator.

Required Text: Jones and Bartlett Fire Service Instructor: Principles and Practice, 1st Edition

Certification testing time: requires additional dates for the certification written exams.

Certification Examination Prerequisites for FSI-II: Certified Fire Service Instructor I and Station Evaluator. Proof must be submitted with application.

For FSI-III: Certified Fire Service Instructor II. Candidates will submit application for the exam after successfully passing the FSI-II exam and successful completion of FSI-III course requirements

Course Fee: \$320.00

## Fire Service Instructor III - Instructional Leadership

This course is designed to meet the third level of instructor as identified in the NFPA 1041 standard. Topics include administration, records, policy, supervising instructors, analysis, evaluation, and program and curriculum development. The course is a blended learning course. Regular class meetings are designed to complement an online learning classroom. Access to a computer with internet access is mandatory. Students are required to complete course work online.

Maximum class size: 16

Training Prerequisites: Certified Fire Service Instructor II

Required Text: Jones and Bartlett Fire Service Instructor: Principles and Practice, 1st Edition

Certification Prerequisites: Certified Fire Service Instructor II and Station Evaluator. Proof must be submitted with application.

Certification testing time: requires additional dates for certification practical exam and written exam.

Class Hours: Candidates will have 90 days to complete course requirements.

Course Fee: \$185.00

## Health and Safety Officer

This National Fire Academy course examines the Health and Safety Officer's role with the identification, evaluation and implementation of policies and procedures that affect the health and safety aspects for emergency responders.

Through the use of case studies, small group workshops and instructor facilitation of safety concepts, participants will gain a thorough understanding of risk management; wellness issues; incident safety functions; regulatory requirements and their impact on increasing the survivability of fire department personnel. This course is designed for individuals who have department level health and safety responsibilities. Attendees should have a working knowledge of ICS, applicable NFPA and OSHA requirements, and responsibility for setting policy for their department on such issues.

Training Prerequisites: None

Required text: IFSTA Fire Department Safety Officer, 1st Edition, NFPA Standard 1500; National Fire Academy Student Manuals; Incident Safety Officer; Health and Safety Officer; OSHA 3130, 1993 (revised).

Certification Examination Prerequisites: Certified Fire Officer I, or have been a Fire Officer with a department on or before July 1, 1986. Student must be a documented Health and Safety Officer for their department. Proof must be submitted with the application.

Certification testing time: requires an additional date for the certification written exam.

Class Hours: 16

Course Fee: \$60.00

## Incident Safety Officer: Fire Suppression

The goal of this course is to provide students with the knowledge and skills needed to perform the duties of the Incident Safety Officer (ISO) during incident operations and training evolutions.

This course is designed for fire and emergency medical services (EMS) responders who may be designated by the Incident Commander (IC) as an ISO while working within an Incident Command System (ICS). These assignments may occur during firefighting, EMS, special operations type incidents, and training evolutions.

This course is an incident-specific, scenario-oriented course designed to teach students what an ISO needs to know at an incident. The course uses instructor-led discussion, multimedia activities, and small group discussions to convey instructional points.

Training Prerequisites: None

Certification Examination Prerequisites: Certified Fire Officer I, or have been a Fire Officer with a department on or before July 1, 1986. Proof must be submitted with the application.

Certification testing time: requires an additional date for the certification written exam.

Class Hours: 16

Course Fee: \$55.00

## Mastering the Promotional Interview

Have you ever wondered what you should wear, how to act or how to succeed in an oral interview? If so, this one-day course is for you. Based on information from instructors who sit on oral boards on a regular basis, this course reviews techniques on how to prepare and present yourself to an oral panel. This course is centered on "line officer" interviews; however, the techniques of preparation also apply for entry and administration levels.

Training Prerequisites: None

Class Hours: 8

Course fee: \$20.00

## National Fire Academy Direct Delivery

Emergency Response to Terrorism Strategic and Tactical Considerations for Supervisors

This updated two day course is designed for the responder(s) who may be responsible for initial and expanded command of incidents involving terrorism. The course is intended to build upon the students' existing skills as an Incident Commander (IC), a practitioner of ICS, with knowledge of NIMS, the National Response Framework, and terrorism. The class will assist the officer in preparing an effective response to the consequences of terrorism. IC's must be prepared to operate as part of a multiagency, multidiscipline, and multijurisdictional response. The course utilizes lecture supported by case studies and practice scenarios to address the command and control challenges that likely will confront the IC. This will enable the students to apply their knowledge of pre-incident planning, managing emergency incidents, and operating as part of a Unified Command structure to ensure the safety of responders while bringing the incident to a successful conclusion.

Class Hours: 16

FM Credit: 4

Course Fee: \$60.00

## National Fire Academy Direct Delivery

Managing in a Changing Environment

This two day course is the second of two courses on midlevel management covering the skills and techniques midlevel managers will need to provide leadership and direction for their departments. Content includes an overview of significant economic, social, political, and technological influences affecting fire service operations. Students will have the opportunity to identify and relate these influences to their personal and professional situations; and to practice strategies for managing changes resulting from those influences.

Class Hours: 16

FM Credit: 4

Course Fee: \$60.00

## National Fire Academy Direct Delivery

Shaping the Future

This two day course is the first of two courses on midlevel management covering the skills and techniques midlevel managers will need to provide leadership and direction for their departments. The first module focuses on identifying opportunities and/or problems. Topics include environmental scanning, paradigm shifts, and methods for reframing problems accurately. The second module deals with group problem-solving techniques. The third module explains the need to quantify, justify, and communicate decisions so they will be imple-

mented effectively. Managing change will be discussed in the final module. Topics include people who resist change, overcoming that resistance, and monitoring and evaluating the change before, during, and after implementation.

Class Hours: 16

FM Credit: 4

Course Fee: \$60.00

## Public Information Officer

This course is designed to instruct participants in the basic methods for establishing and maintaining a positive relationship with the news media. Fire department activities—including public fire education programs, man-made and natural disasters, and emergencies, make developing policies and training for dealing with the news media essential. Discussion topics will cover: public disclosure laws; media relations; and news releases. Participants will learn the basics of preparing news releases, setting up press conferences, and the responsibilities of the Public Information Officer (PIO) at the scene of an emergency. Students will participate in a mock briefing with reporters from various media sources.

Training Prerequisites: None

Required Text: IFSTA Public Information Officer CD Rom 1st Edition

Class Hours: 16

FM Credit: 8

Course Fee: \$60.00

## Station Evaluator Training

This half-day program is designed to establish a standard testing environment for students taking certification skill evaluations. Participants will learn the criteria for being professional and effective station evaluators. Participants will also practice completing skill sheets after viewing videotaped performances.

Any instructor wishing to become a station evaluator at any state certification exam site must complete this course.

Prerequisites: Participants must be state certified as a Fire Service Instructor I. Proof must be submitted with application.

Course Hours: 4

Course Fee: N/C

## Strategy and Tactics/Peterborough

This course is designed to develop fireground skills for the Incident Commander. This basic fireground control course is essential to all company officers and firefighters. Topics include: the role of the company officer, engine and truck company officer, engine and truck company operations, coordination and application of tactical operations, fire and alternate fire attack, manpower utilization, building construction, the Incident Command System and firefighter safety. This class will integrate the use of the Connecticut Fire Academy tabletop community named Peterborough to perform and apply the practical skills learned throughout this course.

Training Prerequisites: None

Class Hours: 16

Course Fee: \$60.00

## Streetwise Skills for Company Officers

This program is designed to provide any new or existing company officer, including those who became a certified Fire Officer a number of years ago with updated training. The content involves two main areas of focus: human resourc-

es and line operations. The program covers the areas of supervision, leadership, conflict, discipline, as well as size-up, initial incident reporting and the development of action plans. There is an excellent balance of lecture, group activities, role playing and tactical simulator time. In addition to being provided as a calendar course, individual modules or the whole program can be custom tailored to meet the specific needs of your department and delivered locally.

Class Hours: 32

Course Fee: \$100.00

## Fire Prevention Programs

### Juvenile Firesetter Intervention Specialist I

The goal of the course is to provide the skills and tools necessary to become a Juvenile Firesetter Intervention Specialist I. The class will address the NFPA 1035 Juvenile Firesetter Intervention Specialist I including: Introduction; Primary Prevention; Identification and Intake; Who Sets Fires and Why, and Interviewing and Intervention Strategies. Students will be introduced to NFPA 1035 Juvenile Firesetter Intervention Specialist I Professional Standard. The individual will learn to conduct an interview with a firesetter and their family using prepared forms and guidelines and who based on recommended practice may determine the need for referral for counseling and/or implement educational intervention strategies to mitigate effects of firesetting behavior.

Course is designed for individuals that have responsibilities related to Juvenile Firesetting Intervention, interviewing, and prevention. The target audience includes practitioners who interact with children who are involved in firesetting and/or arson behavior and their families. In addition to the fire service, professionals from a myriad of fields including Mental Health, Law Enforcement, Education, Counseling Services, and Social Services can benefit from the training.

Training Prerequisites: none

Class Hours: 16

FM Credit: 16

Course Fee: \$60.00

### Juvenile Firesetter Intervention Specialist II

The goal of the course is to provide the skills and tools necessary to become a Juvenile Firesetter Intervention Specialist II. The class will address the NFPA 1035 Juvenile Firesetter Intervention Specialist II including: Identification and Intake; Coalition Building Support and Management; Budget and Funding; Development of a Juvenile Handbook, Resource Directory, Data Base, and Program Evaluation. Students will be introduced to the NFPA 1035 Juvenile Firesetter Intervention Specialist II Professional Standard. The individual will learn to develop and coordinate a child firesetting intervention program and the activities of Juvenile Firesetter Intervention Specialist. The course develops skills including interviewing and assessment, program development, implementation, and evaluation.

Course is designed for individuals that have or will have responsibilities related to the management and/or coordination of a Juvenile Firesetting Intervention program.

Training Prerequisites: Juvenile Firesetter Intervention Specialist I

Class Hours: 16

FM Credit: 8

Course Fee: \$60.00

## Kid's Fire Safety House

The Kid's Fire Safety House is a mobile educational trailer used by community educators to teach preschool to high school aged children home safety. This educational tool allows children to practice escaping from a simulated house fire. The trailer uses electronically operated smoke detectors and a non-toxic smoke in a simulated bedroom to create a realistic environment where children can practice escaping from a house in the event of a fire. Additional features of the trailer enable the educator to teach kitchen safety, home heating safety and reporting an emergency.

Who Can Reserve the Kid's Fire Safety House?

Community educators, including Fire & Life Safety Educators and others engaged in teaching fire or other life-safety skills to the public. This includes fire and emergency medical service organizations and schools.

How Can I Reserve the Kid's Fire Safety House?

To reserve the Kid's Fire Safety House, a letter must be sent to:

Reservation Coordinator

Kid's Fire Safety House

Commission on Fire Prevention and Control

34 Perimeter Road

Windsor Locks, CT 06096-1069

Please include in your letter the date(s) requested, name of event (if applicable), name of organization making request, contact name and phone, and whether it is a day or evening event (times needed). A letter from our office will confirm your request. Reservations cannot be made over the phone. Reserving the Kid's Fire Safety House well ahead of your event date(s) is advised since scheduling is done on a first-come, first-served basis. Thirty-day notice is required.

Once the letter is received, the Reservations Coordinator will send a confirmation letter and an informational package to the requesting party. The information package will include specific instructions on what needs to be done to prepare for the arrival of the Kid's Fire Safety House.

## Public Fire and Life Safety Educator I

This is an entry-level course that will prepare anyone who performs public education duties to present existing programs to all audiences. The course addresses fire prevention activities, the major causes of unintentional injury, characteristics of learning, evaluation of lesson plans, presentation methods, effective usage of audiovisual aids, successfully dealing with the media and recordkeeping. This course meets the requirements of NFPA 1035, "Professional Qualifications for Public Fire and Life Safety Educator I". Reference material is required for the class.

Training Prerequisites: None

Required Text: IFSTA Fire and Safety Educator 2nd Edition, Fires by Elaine Landau, I am Fire by Jean Marzollo and The Great Fire by Jim Murphy.

Certification testing time: requires additional date for certification written exam.

Class Hours: 32

FM Credit: 24

Course Fee: \$150.00

## Hazardous Material Programs

*Hazardous Materials courses provided by the Commission on Fire Prevention and Control are delivered with assistance from the State Emergency Response*

*Commission and the United States Department of Transportation, Pipeline and Hazardous Materials Safety Administration.*

## Basic and Hazmat Metering

The Basic Metering Package supplied to most communities, including the Scott Scout 4-Gas, the MiniRae PID, the Ludlum Model 3 and the SAIC personal dosimeter will be covered in the first module. The HAZMAT Meter Package including the APD2000, the M256A1 kit and the Drager CMS/CDS kits will be covered in the second module. Participants will understand the dual metering approach and conversion factors that are needed to be performed when monitoring atmospheres that are different from the calibration gas. This program will provide the user with an overview of the Basic Metering Package and Hazmat Metering Package that allows them to use these tools as part of their everyday response. To allow more hands-on experience participants are urged to bring their fully charged and calibrated meters, providing their department can support the meters being out of service for the duration of the class.

Class Hours: 8

FM Credit: 8

Course Fee \$30.00

## Hazardous Material Series

The Connecticut Fire Academy is offering the fourth year of educational workshops for hazardous materials, to enhance the first responder's skills, knowledge and ability to safely plan for, respond, and mitigate incidents involving dangerous substances. The instructors will be subject matter experts.

Training Prerequisite: Hazardous Materials Operational Level

Class hours: 8

FM Credit: 4

Course fee \$55.00

## Rescue Programs

*NOTE: The programs listed in the calendar as Rescue Technician are currently being up-dated to the latest NFPA 1006 standard. Therefore the class description, contact hours, and course fee are subject to change. When available, updates will be posted on the CFPC website.*

## Cold Water Rescue

This course is designed for first responders operating at the scene of a cold water or ice rescue. Topics covered include: pre-planning, risk assessment, ice types and how they form, hypothermia, cold water drowning, incident size-up, water rescue equipment, and rescue operations. Participants will perform simulated water and ice (if available) rescues using cold water entry suits and associated equipment.

Training Prerequisites: None

Class Hours: 16

Course Fee: \$65.00

## Rescue Technician – Confined Space

This course will train students to perform technician level confined space rescue operations. The training objectives meet NFPA 1006 and OSHA 1910.146. Students will learn to preplan, evaluate atmospheres and use protective equipment related to confined spaces, implement and terminate an incident management system for confined space. Students will exercise their previous knowledge

for victim management and rope rescue techniques to remove a victim from a confined space. The PPE requirements are rescue gloves, a protective helmet and footwear.

Training Prerequisites: Rescue Technician Core and Hazardous Materials Operational; proof must be submitted with the application.

Certification Examination Prerequisite: Rescue Technician Core and EMR certification

For certification to this level, an additional practical skills examination of one or two days plus a written test is required.

Certification testing time: requires additional dates for the certification written and practical exams.

Class Hours: 48

Course Fee: \$300.00

## Rescue Technician – Core

This course is designed to meet the job performance requirements in chapter 5 of NFPA 1006 Rescue Technician. Students will learn the basics of site operations, size-up, resource management, hazard/risk assessment, ground support for helicopter operations and incident management as it relates to the rescue environment. Students will learn skills to use rope-rescue equipment to manage victims, anchor-rope systems, build and operate lowering and hauling systems in a low angle environment. Students will also be able to inspect and maintain related rescue equipment.

This program is a prerequisite for all technical rescue certification courses.

The PPE requirements are rescue gloves, a protective helmet and footwear.

Training Prerequisite: Firefighter I and Haz Mat Operational

Certification Examination Prerequisite: Minimum EMR; proof must be submitted with the application.

Class Hours: 48

Course Fee: \$300.00

## Rescue Technician – Rope

This program will train the students to perform technician level rope rescue to the NFPA 1006 Rescue Technician standard. The training will focus on rescue situations in the high-angle environment. The students will identify and construct anchoring systems, rappel and belay lines, lowering and hauling mechanical advantage systems.

The PPE requirements are rescue gloves, a protective helmet and footwear.

Training Prerequisite: Rescue Technician Core.

Certification Examination Prerequisite: Rescue Technician Core; proof must be submitted with the application. For certification to this level, an additional practical skills examination of one or two days plus a written test is required.

Class Hours: 48

Course Fee: \$300.00

## Rescue Technician – Trench

This program will train the students to perform technician level trench rescue. The training objectives meet NFPA 1006 and OSHA 1926. Students will evaluate trenches and soil conditions; will learn to shore unprotected straight and intersecting trenches with both community and pneumatic shoring. They will also use supplemental shoring when needed. Students develop an action plan to manage and remove a victim from a trench accident.

The PPE requirements are a protective helmet, footwear, gloves, eye protection, and work clothes.

Training prerequisites: Rescue Technician Core and Hazardous Materials

Operational; proof must be submitted with the application.

Certification Examination Prerequisite: Rescue Technician Core; proof must be submitted with the application.

For certification to this level, an additional practical skills examination of one or two days plus a written test is required.

Certification testing time: requires additional dates for certification written and practical exam.

Class Hours: 48

Course Fee: \$300.00

## Rescue Technician – Vehicle and Machinery

This program meets the requirements of Chapter 8 of the Rescue Technician Professional Qualifications standard. Through classroom sessions and hands-on application you will plan for vehicle/machinery incidents, establish scene safety zones, establish fire protection, perform required stabilization, isolate potentially harmful energy sources, determine and create access and egress points, disentangle victims, remove a packaged victim and terminate the incident. Completion of this program and the Rescue Technical CORE program that covers Chapter 5 of the 1006 standard will allow you to take the certification examination for Vehicle and Machinery Rescue Technician.

Full protective Clothing (no SCBA) required.

Training Prerequisite: Rescue Technician Core; proof must be submitted with the application.

Certification Examination Prerequisite: Rescue Technician Core; proof must be submitted with the application. For certification to this level, an additional practical skills examination of one or two days plus a written test is required.

Certification testing time: requires additional dates for certification written and practical exam.

Class Hours: 48

Course Fee: \$300.00

## Special Programs

### Advanced Introduction to the Fire Service

This program is designed to enhance skills learned during Introduction to the Fire Service and is limited to youth ages 16-17. Topics include On-scene communications (Portable Radio work), EMS/On-scene rehabilitation, Leadership, Basic Instructional Methodology, Introduction to Rope Rescue, Extrication (Stabilization and tool use), Standpipe Operations, Fire Department Organization and Structure, Hose and Ladders. This program will be held in a camp-type "atmosphere" simulating a firehouse environment. Each student will reside at the Connecticut Fire Academy for the duration of the course. All meals and lodging are included in the tuition.

Full protective clothing including helmet, bunker coat, gloves, boots, bunker pants, and eye protection is required for this program.

A special application is required to register for this class, which will be available in May of 2011.

Prerequisite: Graduate of Introduction to the Fire Service.

Class Hours: 6 days. Max class size 20 students.

Course Fee: TBA

### Fire Service Instructor Development Seminar

**Buildings on Fire 2011;**

**Tactical Renaissance and the New Rules of Combat Fire Engagement**

Firefighting in 2011 presents unique and challenging conditions and situations, with fire suppression tactics evolving for the rapidly changing methods and materials impacting all forms of building construction, occupancies and structures. The need to redefine the art and science of firefighting requires an examination of current trends and methods in building construction with an emphasis on the structural anatomy of buildings, construction, occupancy risk assessment, engineered structural and construction systems, extreme fire behavior, tactical patience, and command compression and their direct relationship to structural combat firefighting operations, firefighter survivability and the command decision-making process. This program will also present the concepts and methodologies of Five Star Command™ and the five (5) fundamental core relationships of; Building Construction, Risk Management, Firefighter Behaviors, Incident Operations and Situational Safety and its impact on future fire service training and curriculum development. Examining the cutting edge of emerging fire suppression decision-making and safety protocols that directly influence dynamic command risk management, decisive strategic and tactical considerations, this seminar will provide insights and dialog on the Tactical Renaissance and the New Rules of Combat Fire Engagement for Buildings on Fire in 2011 and beyond.

Class Hours: 8

Course Fee: \$40.00

### Peer Fitness Trainer Workshop

International Association of Fire Fighters, International Association of Fire Chiefs, American Council on Exercise

The purpose of the IAFF-IAFC-ACE PFT certification program is to provide a fitness trainer standard consistent with the health and fitness needs of the Fire Service throughout the United States and Canada. The Peer Fitness Trainer (PFT) program was created so interested fire department personnel could obtain certification in fitness-program design and implementation in order to help their peers with their fitness programs on a one-on-one basis and to help with the physical training of recruits.

The PFT program is coordinated by the Commission on Fire Prevention and Control and held at the Connecticut Fire Academy. This workshop draws students from around the country and will fill up very quickly. Get your application and payment in soon to secure your place in the class.

Class Hours: 40

Course Fee: \$700.00

### Introduction to the Fire Service

This program will focus on introducing youth ages 14-17 to the fire service. Topics include: Fire Department Organization and Structure, Fire Science, Ropes and Knots, Ladders, Fire Streams, Search and Rescue, and Wildland Firefighting. This program will be held in a camp-type "atmosphere" simulating a firehouse environment. Each student will reside at the Connecticut Fire Academy for the duration of the course. All meals and lodging are included in the tuition.

Full protective clothing including helmet, bunker coat, gloves, boots, bunker pants, and eye protection is required for this program.

A special application is required to register for this class which will be available in the early spring of 2011.

Class Hours: 6 days

Course Fee: \$700.00

### National Registry EMT-ALS Practical Exam

The Certification Division of the Commission on Fire Prevention and Control is pleased to announce a new service being provided to the Fire and EMS community. This service will allow National Registry Examination candidates a convenient, in-state venue to take the examination. Our goal is to provide quality service to the Fire and EMS community and to assist the National Registry and State of Connecticut Department of Public Health, Office of Emergency Medical Services in the examination process of qualified individuals. Our professional team will examine candidates in a standardized non-partisan manner that conforms to those policies and procedures established by the National Registry of Emergency Medical Technicians. For more information please contact Ed O'Hurley, Certification Coordinator 860-627-6363 Ext. 223

### Technical Search Specialist Class

The Technical search specialist class is designed to provide the student with knowledge, skills and abilities to perform technical searches after structural collapses, natural disasters or terrorist incidents. A heavy focus is placed on listening devices, search cameras and GPS. The week ends with day and night exercises where the students will use their knowledge, skills and abilities learned from the class.

Course topics include; structural engineering, structural operations, navigation and GPS, listening systems, search cameras and safety.

Training Prerequisites: Applicants must be a member of a State or Federal urban search and rescue team. Task Force Leader needs to sign the application. A copy of your team Identification must be included with application.

PPE Requirements: Helmet ( must be ANSI rated z89.1- 1997 Type I), steel toe safety boots, eye protection, work gloves, standard work/duty clothing, including long sleeve shirts, knee and elbow pads, and rain gear suitable for search and rescue operations.

Instructors: This class will be taught by FEMA instructors.

Class Hours: 40 - this breaks down to 4- 8 hour days with 1 day/night Field Operations.

Course Fee: \$1,500.00

## CPAT

### Orientation & Physical Conditioning

The Candidate Physical Ability Test (CPAT) consists of eight separate events. CPAT is a sequence of events requiring you to progress along a predetermined path from event to event in a continuous manner. The events include: Stair Climb, Hose Drag, Equipment Carry, Ladder Raise and Extension, Forcible Entry, Maze Search, Victim Drag and Ceiling Breach and Pull. This test was developed to allow fire departments to obtain pools of trainable candidates who are physically able to perform essential job tasks on the fire scene. This is a pass/fail test based on a validated maximum total time of 10 minutes and 20 seconds.

During the events, you wear a 50-pound vest to simulate the weight of a self-contained breathing apparatus (SCBA) and firefighter protective clothing, a helmet and gloves. An additional 25 pounds, using two 12.5- pound weights which simulate a high-rise pack (hose bundle), is added to your shoulders for the stair climb event only. Throughout all events, you must wear long pants, footwear with no open heel or toe, a provided hard hat with chinstrap, and provided work gloves. Watches and loose or restrictive jewelry are not permitted.

All props are designed to obtain the necessary information regarding your physical ability. The tools and equipment were chosen to provide the highest level of consistency, safety and validity in measuring your physical abilities. A schematic drawing of the CPAT is included in the orientation material. The events and distances between events are always the same.

The events are placed in a sequence that best simulates fire scene events while allowing an 85-foot walk between events. To ensure the highest level of safety and to prevent exhaustion, no running is allowed between events. This walk intentionally allows you approximately 20 seconds to recover and regroup before each event.

The history of Candidate Physical Ability Testing in Connecticut has shown beyond a doubt that preparation is the key to success. CPAT is extremely demanding. CPAT tests your strength, agility, balance and ability to follow directions while under physical and emotional stress. Many have made the error in believing they can pass without proper preparation. The Connecticut Fire Academy is required to offer detailed Orientations and two Practice Tests prior to the administration of CPAT. The orientations include the review of all materials within the Candidate Guide booklet. More importantly, the orientations give the candidate the opportunity to perform a self-evaluation by physically reviewing and using the same equipment used in the testing process. The Practice Tests allow candidates to run the test course under timed conditions. If the Practice Test is conducted under "CPAT Conditions" and the candidate passes, it will be counted as passing CPAT. Attending the orientations and practice tests is highly recommended. In addition to the required 8 week preparation period, there is an additional two weeks administrative process required. Therefore, the minimum closing date for first-time candidates taking CPAT is 10 weeks prior to the actual testing date. All testing is dependent upon date availability. Please refer to our website at [www.ct.gov/cfpc](http://www.ct.gov/cfpc) for a listing of CPAT application periods.

To register for CPAT, please complete the CPAT application in this calendar or at our Website [www.ct.gov/cfpc](http://www.ct.gov/cfpc). You will be sent an orientation packet which will include orientation, practice test and CPAT dates and times.

CPAT fee: \$150.00

### 2011 CPAT Schedule

To better help the candidate, the Connecticut Fire Academy has now developed Spring and Fall CPAT schedules. It is important to understand that all Orientations, Practice Tests and CPAT are based on two registration dates. Applications must be received by the session closing date to be registered for that session. The 2011 session dates are: February 25, 2011 for the Spring Session and July 29, 2010 for the Fall Session.

Candidates will be sent a packet containing a participant manual and their assigned Orientation, Practice Test and CPAT dates and times approximately 2-3 weeks after the registration period has closed.

### CPAT Cancellations by the Connecticut Fire Academy

CPAT may be cancelled due to a number of conditions affecting testing. The main reason for cancellation is adverse weather. The weather can be very unpredictable do not rely on your local weather reports, as the conditions may be different at the test site. It is highly recommended that you call 877-528-3473 (in state), (860) 627-6363 (out of state) extension 415 Prior to traveling to the testing site. There will be a prerecorded message stating that the test is either running or has been cancelled. Unfortunately, the test can be cancelled at the last minute. If you are traveling a long distance we encourage you to call extension 415 several times during your travel.

If the CPAT test is cancelled the message on extension 415 will state how and or when you will be notified of the rescheduled CPAT test date.

### Directions to Connecticut Fire Academy CPAT Center in Meriden

From the Hartford Area:

Take I-91 South

Merge onto CT Route 9 via Exit #22 North toward New Britain

Take Exit #22 toward CT Route 15 South

Turn right onto Frontage Road

Turn right onto CT Route 372 Worthington Road

Merge onto CT Route 15 South via ramp on Left toward New Haven

CPAT Center will be on your right.

From New Haven Area:

Take I-91 North

Merge onto CT Route 15 North via Exit #17 toward Berlin Turnpike

You will pass CPAT Center on your left, take next "U" turn onto

Route 15 South

CPAT Center will be on your right.

## UNIFORMED PROFESSIONAL FIREFIGHTERS ASSOCIATION OF CONNECTICUT

# CERTIFICATION

## National Professional Qualifications Standards

The State of Connecticut Commission on Fire Prevention and Control is pleased to offer Fire Service Certification to the members of Connecticut's fire service. Certification is an excellent means by which an individual may measure his/her knowledge, skills, and abilities against a national standard and that of their peers.

As indicated below, the Commission currently offers 40 levels of certification. Authority to certify to the level of Fire Inspector I and Fire Investigator has been delegated to the Office of State Fire Marshal. The National Fire Protection Association Professional Qualifications Standard against which the examination is based is noted below. The Commission has adopted the most current edition of the noted Standards as the Standards for Certification.

The certification examination process for each level consists of a written or oral examination and a practical skills examination. The levels of Firefighter I and Firefighter II also require verification of live fire suppression activities.

All of the Commission's Certification levels have been accredited by the National Board on Fire Service Professional Qualifications and the International Fire Service Accreditation Congress.

This summary is designed to provide an overview of the Commission on Fire Prevention and Control's Certification Process. For more detailed information, including the specific examination requirements for each level, please contact the Certification Division at 860-627-6363.

## Indemnification of Instructors

Be it enacted by the Senate and House of Representatives in General Assembly convened:

Section 1. Section 7-323q of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2010):

The state shall save harmless and indemnify any person certified as a fire service instructor by the Commission on Fire Prevention and Control under section 7-323l from financial loss and expense, including legal fees and costs, if any, arising out of any claim, demand, suit or judgment by reason of alleged negligence or other act resulting in personal injury or property damage, which acts are not wanton, reckless or malicious, provided such person, at the time of the acts resulting in such injury or damage, was acting in the discharge of such person's duties (1) as an employee or member of a municipal, state or tribal nation fire department to provide fire service training and instruction for the other members or employees of such municipal, state or tribal nation fire department, (2) as a fire service instructor employed by said commission to provide fire service training and instruction on behalf of said commission, or (3) as a fire service instructor employed by a regional fire school to provide fire service training and instruction on behalf of such school.

Approved May 18, 2010

As of November 2010

NFPA Standard	Certification Title	Prerequisite
1001 2008 Edition	Firefighter I	Member of a Connecticut Fire Department
1001 2008 Edition	Firefighter II	Firefighter I and Haz-Mat Operational or continuous member of fire service since prior to July 1977
1002 2003 Edition	Pump Operator	Firefighter I or continuous member of fire service since prior to July 1977 and CDL or Q Endorsement License
1002 2003 Edition	Aerial Operator	Firefighter I or continuous member of fire service since prior to July 1977 and CDL or Q Endorsement License
1002 2003 Edition	Tanker Operator	Certified Pump Operator
1003 2005 Edition	Airport Firefighter	Firefighter II and Haz-Mat Operational

1006 2008 Edition	Rescue Technician Core	MRT
1006 2008 Edition	Rescue Technician - Structural Collapse I/II	Direct Entry (USAR) with Connecticut Rescue Core
1006 2008 Edition	Rescue Technician - Rope Rescue I/II	Connecticut Rescue Technician Core and current MRT
1006 2008 Edition	Rescue Technician - Trench Rescue I/II	Connecticut Rescue Technician Core and current MRT
1006 2008 Edition	Rescue Technician - Vehicle/Machinery I/II	Connecticut Rescue Technician Core and current MRT
1006 2008 Edition	Rescue Technician - Confined Space I/II	Connecticut Rescue Technician Core and current MRT
1021 2003 Edition	Fire Officer I	Firefighter II or continuous member of fire service since prior to July 1977 and Fire Service Instructor I
1021 2003 Edition	Fire Officer II	Fire Officer I and Fire Service Instructor I
1021 2003 Edition	Fire Officer III	Fire Officer II and Fire Service Instructor II
1021 2003 Edition	Fire Officer IV	Fire Officer III
1031	Fire Inspector I	Delegated to Connecticut DPS

472 2008 Edition	HM/WMD and Awareness and operational levels and mission specific competencies Competencies Operational	Firefighter I or OSHA 1910.134
472 2008 Edition	Hazardous Materials Technician	Firefighter I or 29 CFR 1910.134 and Haz-Mat Operational.
921	Fire Investigator I	Delegated to Connecticut DPS (Future)

The Training Division of the State of Connecticut Commission on Fire Prevention and Control has streamlined the process by which individuals may participate in certain training programs by eliminating as training prerequisites certification examination requirements. The responsibility for ensuring that individuals are qualified to participate in a certification examination now shifts from the Training Registrar to the individual certification candidate. Candidates for Certification are now personally required to ensure that they have met all prerequisites prior to submitting an examination application and are required to submit any required documentation prior to the examination. Failure to do so will result in rejection of the examination application.

Additionally, State of Connecticut Regulations require that all candidates for certification be 18 years of age at the time of the examination and that candidates for certification be a member of a fire department with the exception of Public Fire and Life Safety Educator I and II which allow direct entry into those levels.

## CERTIFICATION DIVISION

### ACCOMMODATIONS FOR CANDIDATES WITH LEARNING/READING DISABILITIES PARTICIPATING IN WRITTEN CERTIFICATION EXAMINATIONS FOR FIREFIGHTER - I ONLY

#### I. General Policy

A. In accordance with Section 7-323I-95 (d) of the Regulation of the State of Connecticut, all examinations and/or components of examinations shall be structured and administered in accordance with the Americans with Disabilities Act. The Certification Division will make reasonable accommodations to the known learning/reading disabilities of candidates to the extent feasible. Accommodating the individual handicapped candidate's needs while maintaining the integrity of the certification testing process will be of primary consideration.

#### II. Reasonable Accommodations

Reasonable accommodations to be made in test administration are specified below in Section V. One or a combination of accommodations may be necessary for individual candidates according to their needs and the requirements of the test material to be presented to them. The Director of Certification may allow other accommodations on a case-by-case basis.

#### III. Documentation of Handicapping Condition

Each candidate requesting accommodations that effect actual test conditions will be required to furnish documentation of the handicapping condition and the accommodation(s) needed. Documentation must be sent to the Director of Certification. The proper individual examination application form and testing fees must accompany the above documentation. All documentation submitted shall remain confidential.

#### IV. Testing Location

Administration of examinations for individuals with learning/reading disabilities will be at the offices of the Commission on Fire Prevention and Control in Windsor Locks. At the direction of the Director of Certification, an examination proctor may administer examinations in the field under very strict guidelines.

#### V. Accommodation Options

The following are the accommodation options which may be afforded to the candidate. Other accommodations may be made available to the candidate based upon the individual needs. The Commission may or may not be fiscally responsible for accommodations made.

- A. Additional time
- B. Individual monitor or special attention to assure the candidate has understood instructions
- C. Oral examination

#### IV. Exception

The expectation for a first responder will be to read and write in American English at Hazardous Materials incidents. Therefore, no accommodations can be made during any hazardous materials Awareness, Operational or Technician Level cognitive or psychomotor Certification examination.

### CT Certification on the Web

Please refer to the Certification Division Page of the CFPC website at <http://www.ct.gov/cfpc> for up-to-date certification examination information, certification rules and regulations, examination schedules, and downloadable examination applications for all currently offered examinations.

### National Fire Service Certification

The Commission is proud to offer National Fire Service Certification as an accredited agency under the National Board on Fire Service Professional Qualifications and the International Fire Service Accreditation Congress for selected levels.

All individuals who successfully attain state certification will be automatically registered for national certification with the National Board on Fire Service Professional Qualification and/or the International Fire Service Accreditation Congress for the levels accredited by either of those bodies.
