

EMERGENCY VEHICLE DRIVER TRAINING INSTRUCTOR UPDATE WEBINARS

Prerequisite: EVDT-I, 2008 - MUST BE verified by VFIS prior to invitation to a webinar.

Driving is an ESO's most frequent and possibly most serious risk. We are proud to bring you a comprehensive, updated Emergency Vehicle Driver Training program that will allow you and your organization the opportunity to improve the safety of your people out there on the road.

We have thousands of instructors in the field today that have taken the 2008 version of EVDT (black book). This webinar is an update for those instructors and is intended to provide all needed background and materials to teach the new 2016 edition of EVDT. Attendance at a regional TTT course after the 2008 release will be verified prior to being accepted into this update webinar. We expect the webinar to be approximately 2 hours of interactive program delivery. Requirements for this webinar include a computer or tablet and an internet connection sufficient to stream the webinar for 2 hours. Successful completion of the webinar and testing will result in the delivery of a certificate of completion and a copy of the new 2016 EVDT Instructor resource kit to each instructor.
