34 PERIMETER RD. WINDSOR LOCKS, CONNECTICUT 06096

April 8, 2004

The Commission on Fire Prevention and Control in cooperation with the Department of Environmental Protection Division of Forestry and the Connecticut Rural Fire Council are pleased to offer Incident Command Training to Connecticut Emergency Responders. The training will be two highly regarded National Wildfire Coordination Group (NWCG) Incident Command courses. There is **no** charge to attend these programs.

**I-200:** 12 hours of instruction consisting of 5 modules. Students must have a basic understanding of ICS terminology and structure. Modules will cover principles associated with ICS, organization, facilities, resource terminology, and common responsibilities associated with assignments. Discussion on primary functions, management by objective, chain of command, transfer of command, unified command, span of control communications, and incident action plan. The need for resource typing, resource status, proper staging, command post, and operations base are explored.

**June 12-13, 2004 9:00 a.m. – 4:00 p.m.**  
**CONNECTICUT FIRE ACADEMY**

**I-300:** 24 hours of instruction consisting of 5 modules. Students will interact in more detail on the organization and operations of ICS. There will be a comprehensive description of responsibilities of the organizational elements within each section of the ICS. Discussions on ways in which incidents are organized to ensure achievement of incident objectives utilizing briefings and forms used to support the incident. The importance of staging, resource management, ordering responsibilities, Operational Planning Worksheets, development of incident objectives, strategies and planning meetings will be explored. Class discussion on support plans for incidents, e.g. communications, traffic, medical and demobilization.

**June 14-16, 2004 8:00 a.m. – 5 p.m.**  
**CONNECTICUT FIRE ACADEMY**
