Firefighter II Certification Live Fire Suppression Verification Form

This is to attest that:

Name of Candidate	ID #
Name of Department	

Has successfully completed the following Live Fire Suppression Evolution (either in actual suppression activities or during formal training conducted in accordance with the applicable portions of NFPA Standard 1403, Standard on Live Fire Training Evolutions, 2002 edition). Completion of the evolution shall have addressed all requirements of the specified Job Performance Requirement. (See reverse side of this form for a complete Job Performance Requirement description). **(To be valid for satisfaction of Certification Requirements, the initials of the CFPC Certification Representative must be annotated in the specified box)**

Objective #	Job Performance Requirement	Date Completed	CFPC Auditor Initials
JPR# 6-3.2	Coordination of Interior Fire Attack - Various Levels SS#'s 6.3.2A, 6.3.2B, 6.3.2C		

And

Has successfully completed **one or more** of the following Live Fire Suppression Evolutions (either in actual suppression activities or during formal training conducted in accordance with the applicable portions of NFPA Standard 1403, Standard on Live Fire Training Evolutions, 2002 edition). Completion of the evolution shall have addressed all requirements of the specified Job Performance Requirement. (See reverse side of this form for a complete Job Performance Requirement description).

Objective #	Job Performance Requirement	Date Completed
JPR# 6-3.1	Ignitable Liquid Fire Extinguishment w/ Foam SS#'s 6.3.1A, 6.3.1B	
JPR# 6-3.3	Flammable Gas Cylinder Fire Control SS# 6.3.3A	

This form is **NOT** valid without signature below:

Chief of Department or Designee or Director of Regional Fire School or Designee

Printed name	Signature	Date

Objective #	Job Performance Requirement
6-3.1	<p>Ignitable Liquid Fire Extinguishment w/Foam</p> <p>Extinguish an ignitable liquid fire, operating as a member of a team, given an assignment, an attack line, personal protective equipment, a foam proportioning device, a nozzle, foam concentrates, and a water supply, so that the proper type of foam concentrate is selected for the given fuel and conditions, a properly proportioned foam stream is applied to the surface of the fuel to create and maintain a foam blanket, fire is extinguished, reignition is prevented, team protection is maintained with a foam stream, and the hazard is faced until retreat to safe haven is reached.</p>
6-3.2	<p>Coordination of Interior Fire Attack - Various Levels</p> <p>Coordinate an interior attack line team's accomplishment of an assignment in a structure fire, given attack lines, personnel, personal protective equipment, and tools, so that crew integrity is established; attack techniques are selected for the given level of the fire (for example, attic, grade level, upper levels, or basement); attack techniques are communicated to the attack teams; constant team coordination is maintained; fire growth and development is continuously evaluated; search, rescue, and ventilation requirements are communicated or managed; hazards are reported to the attack teams; and incident command is apprised of changing conditions.</p>
6-3.3	<p>Flammable Gas Cylinder Fire Control</p> <p>Control a flammable gas cylinder fire operating as a member of a team, given an assignment, a cylinder outside of a structure, an attack line, personal protective equipment, and tools, so that crew integrity is maintained, contents are identified, safe havens are identified prior to advancing, open valves are closed, flames are not extinguished unless the leaking gas is eliminated, the cylinder is cooled, cylinder integrity is evaluated, hazardous conditions are recognized and acted upon, and the cylinder is faced during approach and retreat.</p>
