Plainville Firefighter Martin Schiraldi was recently injured in a freak accident using a table saw while helping a friend with some trim work. His hand got pulled into the saw and 3 of his fingers were severed and horribly damaged. He has already had reconstruction surgery but is in need of several more surgeries in the near future in the hope of regaining some use of his right hand. Surgeons estimate that it will be 8 to 12 months at least for recovery. Insurance should cover most but not all of the medical bills. He will be unable to work for quite some time during recovery. He has no disability insurance and he is in need of financial assistance to help pay his bills and take care of his wife, family, and home while he is recovering. The proceeds will directly benefit Marty on his road to recovery. Please consider purchasing a ticket or donating to this Plainville Fire-Fighter who donates so much to our community!

For more information, please contact: Captain Kurt Plourde 860-481-9175, Patrick Kilby 860-966-3873 or Scott Saunders 860-573-6966
