

## TRAFFIC CONTROL FOR FIRST RESPONDERS TRAIN-THE-TRAINER

**Traffic Control for First Responders** is designed to aid departments that are involved with managing traffic at emergency scenes with or without an organized Fire-Police Unit. The program covers the roles of the emergency responder in traffic control, state statutes that apply for the Fire-Police Officer, required training, procedures for dealing with the public and the press, Communication guidelines, personal protective and traffic control equipment, determining traffic control zones and practical exercises.

This Train-the-Trainer is a unique opportunity to provide your students with a Connecticut Fire Academy Training Certificate of completion and having them registered in our data base. Only those instructors that have successfully completed this Train-the-Trainer will be allowed this opportunity. The Train-the-Trainer will review the Traffic Control for First Responders program and the expectations that are required of you from the Connecticut Fire Academy. Each participant will receive a CD which includes the necessary support material to present the program.

To participate in this program you must either be a Certified Fire Service Instructor or provide a signed letter from the Chief of Department verifying your position as the Training Officer for your department or Fire-Police Unit. Proof must accompany the application. Confirmations and directions will be mailed prior to program. There is no charge for this program.
