## Regional Fire Training Facility

A **Regional Fire Training Facility** located in Fairfield, CT. The Fairfield Regional Fire School is training base for the Fairfield Fire Department and also serves as a regional fire training school . The F.R.F.S. is host to a number of Connecticut Fire Academy certification classes as well as various courses in Firefighting, extinguishers, CPR, Hazardous Materials and Technical Rescue.

For classroom availability or additional information , contact the [Fairfield Regional Fire School](http://www.FairfieldRegionalFireSchool.com) at (203) 254-4708.

- ◆ All rooms are equipped with the following equipment: Overhead Projector, VCR/DVD and TV, White Board and Easel Chart. Specialized A/V equipment (LCD Projector) is available on a first come/serve basis.
- ◆ Cost for use of copy machines will be calculated at a rate of \$.25 per copy above 30 pages.
- ◆ The School reserves the right to assess a fee for staff support when necessary. This fee will be based upon the actual cost of employee support.
- ◆ Facility user fees will be reviewed on a case by case basis for private sector entities using Fire School facilities for programs which result in a profit.
- ◆ Municipal fire and emergency service departments/organizations are exempt from fees with the exception of those situations which require the scheduling of staff support during non-business hours or the use of propane, liquid smoke, etc that require special assistance. Normal hours are Monday through Friday, 08:30 to 16:30 hours.

Payments should be made by check (NO CASH) to the Fairfield Regional Fire School and should be submitted prior to the date of your class.

# Facility Usage

## Classrooms

Three classrooms are available for teaching lessons. Each room offers a variety of available AV media. Currently, the training center has overhead projectors, slide carousel, VCR/TV, dry erase boards, flip charts as well as a LCD projector available to enhance your presentations.

### Standard Classroom Configurations

Classroom "A" - 36 persons (LCD Projector)

Classroom "B"/Meeting/Conference Room - 30 persons

Annex - 30 persons

## Confined Space Rescue Simulator

This simulator consists of a series of vaults and pipes which simulate confined space rescue scenarios. The simulator is actually built at grade level with access/egress doors for drill setup, evolutions or emergency access. Manhole access is provided topside for the majority of scenarios. A gradual slope has been paved leading up to the top of the simulator which can be used for apparatus, tool staging and tripod usage.

## Live Fire Training

A four story training tower attached to a live fire training building is available for In service training, department wide drills as well as certification classes. The windows of the training tower have plywood plates which provided obscured vision when used with a smoke generator. The two story "burn room" offers a peaked roof for ventilation with real smoke and heat as well providing an introduction to interior heat conditions.

## Propane Fires

This simulator consists of a 2 stations, a dual horizontal tank setup with multiple shutoff valves and plumbing and a single upright tank. Both scenarios allow liquid or vapor based fires controlled from an elevated remote station with a full view of all students.

## Hazardous Materials

Many scenarios can be simulated using the variety of available props. An MC 312 (corrosives) and MC 306 (gasoline/liquid) are available as well as many other simulators. The Fairfield County HAZMAT unit continues to utilize this facility for training.

## Other Facility Amenities:

**New Equipment:** We have just obtained a new mannequin and smoke machine to enhance our extensive facility equipment list.

**Safety Officers:** All live burning exercises require a certified safety officer. If your department can not provide one, we can provide one for an additional fee.

**SCBA Compressor:** available for refilling bottles for a minimal fee.

**And we offer.** . .Cool Draft for Rehab, Lights for Night Training, Defib. Available During Classes

Any organization using the facility must provide us with an insurance certificate and liability release. Please contact us for more information.

# From The Director

## Welcome to the F.R.F.S.

As a regional fire school we are making our facilities, equipment and support staff available for your department to help raise your personnel's level of training. We continue to work with the Connecticut Fire Academy to host quality training programs without the need to travel outside of Fairfield County.

The Fairfield Regional Fire School remains one of only 2 class "A" burn buildings available for live fire training in the state. Due to the number of requests to use our facility, we suggest you reserve your dates early.

Our doors are open for company drills, certification burns and new product demos. **We can customize a course based on your department's needs, staffing and procedures.** We offer modern equipment and certified instructors to provide premier training. Please feel free to contact me with any questions or requests.

Captain Douglas Chavenello  
F.R.F.S. Training Director
