12th Annual Trauma Symposium:

Rural Trauma Care

Pushing the **Golden Hour**

Wednesday, October 5, 2016

7:30 AM – 3:45 PM

The Saint Francis Hospital and Medical Center Department of Surgery is proud to present the 12th Annual Trauma Symposium. This year's focus is the care of trauma patients in the rural setting. We will hear about the specific challenges that are faced in rural trauma care. In contrast, we will be drawing expertise from the urban setting to again highlight the very unique challenges that are faced with this specific patient population. Come share your knowledge and experience as you network with people from around the region.

Goals:

1. Consider the treatment of trauma patients outside of the traditional trauma center.
2. Identify unique challenges in caring for trauma patients in the rural setting.
3. Identify indications and contraindications for appropriate tourniquet use based on current evidence based practice.
4. Describe the evolution and management of an mass casualty incident in the rural setting.
5. Discuss the many challenges that are faced with triage, treatment and transport in the rural setting.

Saint Francis Hospital and Medical Center is accredited by the Connecticut State Medical Society to sponsor CME Category I credit for continuing medical education for physicians. Saint Francis Hospital and Medical Center is also an approved provider by the Vermont State Nurses' Association, Inc., an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. All Medical and Nursing CME's are pending CME approval. CME credit for EMS has been submitted to Connecticut Office of Emergency Services for approval.
