

STATE OF CONNECTICUT
DEPARTMENT OF EMERGENCY SERVICES AND PUBLIC PROTECTION
Connecticut Fire Academy

March 20, 2012

With the recent consolidation of CFPC into DESPP a change in how and where we fuel some of the division vehicles has occurred.

Diesel fueled vehicles will continue to be filled at Department of Transportation fueling locations with the reprogrammed key fobs in the vehicle. The procedure to fuel diesel vehicles remains the same, to operate the pump insert the key fob and enter the required information as you are prompted, you will need to know the vehicle mileage. Attachment 1 is a list of DOT fueling locations around the state.

Gasoline fueled vehicles will have to be fueled at DESPP fuel locations with the replacement fobs (blue color) that are in the vehicles. The Troop H (formerly Troop W) fuel depot at Bradley Airport has a locked gate with a combination lock for CFPC users (lock code 6363) and a keyed lock for the State Police use. The procedure for fueling is much the same as the DOT locations except that when you insert the fob the prompts will ask you for your employee number and the vehicle mileage. Full time and Adjunct employee numbers have been added to the fuel dispensing system. A listing of the DESPP fuel locations is Attachment 2.

Vehicles will also have a Voyager Fleet Card to replace the current commercial gasoline credit cards, the Voyager Fleet Card can be used at most gas stations. Voyager Fleet Cards are designed to allow employees to purchase gasoline when traveling out of state or after normal business hours. The cards are intended to compliment rather than to replace or avoid using state gas pump stations. In no event shall a state-issued fuel card be used to refuel personal vehicles. A PIN number will be in the vehicle for each Voyager Fleet Card. The Voyager Fleet Cards can be used by full time or adjunct staff. Attachment 3 is a copy of the Voyager Fleet Card information which includes a list of the companies that accept the Voyager Fleet Card. After each Voyager Fleet Card transaction the individual must complete the following information on the Fuel Card Log Sheet (attachment 4) in each vehicle for reconciliation purposes. Complete the date of purchase, vendor name, and total amount of the transaction and be sure to place the receipt in the envelope.

Vehicle users are requested to fill vehicle upon return anytime vehicle fuel is below one half tank.

Thousands of independent retailers nationwide.
Accepting locations as of Q3 2009. Locations subject to change without notice.

How To Use The Voyager Card

You may use your Voyager card at participating retail locations. Some companies are not yet accepting the card electronically at all locations. These locations should accept the card manually until their electronic systems have been reprogrammed.

- 1 If the gas station has card readers located at the pump, you may use your Voyager card at the pump. If there are no pump card readers, see the attendant inside to process your transaction.
- 2 Swipe your card at the pump card reader. If the pump card reader will not accept the card, take the card inside to the attendant and have him/her attempt to process the transaction electronically on the inside equipment. If the attendant questions the card, show him/her this brochure and ask him/her to follow the instructions.
- 3 If the pump terminal requires you to choose either "Credit" or "Debit", press the "Credit" key.
- 4 If required, the terminal may prompt for an **ID** or **PIN** number. Enter your assigned number and press "Enter."

VOYAGER®

- 5 If required, the terminal may prompt to enter the ~~ODOMETER~~ reading. Enter your odometer as a whole number. **DO NOT** enter tenths of miles.
- 6 All terminals are different and may require the information to be entered in a different order. Simply follow the instructions on the terminal to process your transaction.
- 7 If the card cannot be read on any of the equipment, notify Voyager at the number shown on the back of your Voyager card or in this brochure. Voyager will notify the oil company of a problem at one of its locations. The company is often not aware that there is a problem.
- 8 If the sale is processed manually, write **ID** number and **ODOMETER** reading on the ticket. If your card cannot be read at any location, it is likely that the magnetic strip is damaged. If this occurs, notify your fleet manager or Voyager to get a replacement card.
- 9 If the attendant has any questions, present the Voyager Retail Instructions or provide them with the 800 number on the back of the card for assistance in processing the transaction.
