

National Child Passenger Safety Certification Training Program

October 15, 16, 22 and 23, 2016

8 AM to 5 PM

Sponsored by:

**Saint Francis Hospital and Medical Center
Department of Trauma
Violence and Injury Prevention Program**

Location: Innovation + Learning Center at
Saint Francis Hospital and Medical Center
260 Ashley Street, Parking Lot C entrance
Hartford, CT 06105

During the extensive course, (developed by the National Highway Traffic Safety Administration, certified through Safe Kids Worldwide and monitored by the Child Passenger Safety Board) you will learn about:

- crash dynamics,
- injury prevention strategies,
- child restraint selection and installation and
- vehicle occupant protection.

Taught through a combination of:

- hands-on activities,
- lectures and discussion with a wide variety of child restraint and vehicle belt systems.
- Quick paced and interactive, be ready to dive right in and learn!

Individuals who obtain Certification should be willing to serve as a child passenger safety resource for their organization and the community. After successful completion of the Certification training you will be:

- equipped to provide basic awareness about child passenger safety issues and
- provide basic instruction in child passenger safety to families and caregivers.

If you are interested in becoming a Child Passenger Safety Technician, please contact Marisol Feliciano 860-714-5808, or via email mfelicia@stfranciscare.org for more information and local fee information.

Course ID: CT 20160411394
