

STATE OF CONNECTICUT

INSURANCE DEPARTMENT

March 11, 2015

To: Property Casualty Carriers writing homeowners' policies in Connecticut

Re: Application of the ISO/PCS catastrophe codes 66, 67 and 68 for winter storm damage

With the recent thaw, many Connecticut homeowners may likely be experiencing water damage to their home interiors as a result of significant ice damming and snow pack. The Department is advising all P&C carriers writing homeowners' business in the state to code covered losses caused by the perils of ice, wind, freezing or snow with the Catastrophe codes 66, 67 or 68 that have been assigned by the ISO/PCS Property Claims Services for winter storms.
