INSURANCE DEPARTMENT
STATE OF CONNECTICUT
2016 AUG -5 A 7:30

August 2, 2016

Just say no to Insurance Rate Increase, any Utility rate Increases as well as any Tax increase.

We really don't know how to explain our disgust with the Mallory administration and the Legislators in both houses ! Doesn't make a difference whether they are Democratic or Republican. You say our voice counts I have never seen this happen. Promises, Promises and more Promises with no results.

We are life long CT residents and have seen this State deteriorate year after year. People & Companies are leaving the State daily by enormous numbers. Our taxes are Outrageous and Utility Rate requests are granted time and time again and now Health Care Coverage Rate increases are being requested at outrageous percentages.

When will anyone come to grips with you can only get so much from so few.

Hoping you can do something to help us and all the residents of the State of CT. We all need some kind of relief.

Sincerely,
Joanne and Rich Keever
