

MIG Evaluation Committee
4/26/07
10:00 at Office for Protection and Advocacy

1. TA evaluation

Mintz and Hoke website tactics

Missing the immediate survey on the website use—Cindy to e-mail them

Needs to have a way for people to opt out of the survey when they come back to the website

Needs to have a way to track people filling out a survey if more than once

Website has the ability to track people leaving the website to another link and not coming back

Can give a loose estimate of people using the website from out of state

Meeting set up for 5/30 at 10am—will cancel if need be.

Wisconsin has a website – Pathways – see if it has any evaluation pieces. Their target is businesses. Amy to find out who is the contact person.

DMHAS working on a recovery-friendly employer website, working through CCAR. This site would be a link for MIG website.

Other websites coming: NGA for young adults, another DMHAS site

Task force DOE looking at all state agency websites to standardize language about transition.

We need to develop standard language describing the website to use for links from other sites.

DMHAS systems transformation grant activities also important.

TA tracking form (Amy to incorporate suggested changes based on input from other workgroups)

Edits suggested for source or call and type of response, re-alphabetize

Need to revamp types of TA – bigger topic areas with smaller subgroups, then open-ended text field:

Employment: seeking – maintaining – advancing: specify: _____

Get input from workgroups

Identify type of disability, if relevant

How did they hear about the TA 800 number

Information dissemination: Identify format of TA needed – i.e., Braille, etc., list of materials actually sent

Want TA up and running by the summit

Evaluation of whether something was done will be based on the triage and the date

J Morrow to create the website, add to which server? TBD

2. TA for MIG eval committee

Meeting with Larry when he's back from vacation

Group members need to look at NCHSD and NEP websites!!!!

Input we need from NCHSD and NEP:

Feedback on website – get input from other states

NCHSD – ask them to find out from other states with websites what they are doing to evaluate those websites

At NEP meeting, Amy and Julie to ask ME, MA if they're evaluating websites

Get customized list from NCHSD

Pick a date after the summit for site visit from NCHSD, where they could meet with each workgroup

Continue to develop questions for NCHSD input

Need benchmarks in the workplans, facilitated by NCHSD staff

3 days, right after the summit – include Gina Livermore

Amy will check with Quincy and Jim – get legwork started

MIG-RATS – collecting model data sharing agreements

3. Data from other state agencies

NGA, OWC, SDE exiter survey

Need to connect with DMHAS about data-sharing initiative across 16 state agencies

4. Data from secondary sources

Will be talking further with Gina Livermore about this

Metrics in Strategic Plan Blue Book, which comes out quarterly

– working on that in smaller group

Need to figure out key questions to answer objectives in the workplans, then identify the higher level questions that will go in all reports.

Draft by next evaluation group meeting

5. WIPA

Had a national conference call – notes going out tomorrow

Set up a smaller meeting to move forward with plan

Plan is drafted, needs a timeline

Amy, Julie and Cindy to meet on May 3rd.

Meeting adjourned at 11:02
