Pursuant to its opinion in this matter, the Council hereby directs that a certificate of environmental compatibility and public need as required by section 16-50k of the General Statutes of Connecticut, revisions of 1958, revised to 1981, as amended, shall be issued to Century Norwich Corporation for the construction of a 300-foot CATV tower on Plain Hill Road in Norwich, Connecticut, as specified in the Council's record on the matter, subject to the following conditions:

1. The tower shall be no taller than necessary to provide the service, and in no event shall it exceed 300 feet;
2. The certificate holder shall notify the Council, in advance, of any plans to add equipment to the tower other than that described in the Council's findings of fact on this matter even if, in the certificate holder's opinion, no Council action is required;
3. The certificate holder shall contact the operators of the telecommunications towers referenced in Council finding number 55 and investigate the possibility of offering tower space, for whatever considerations are found appropriate, to allow consolidation of uses and removal of additional towers. The certificate holder shall report to the Council on such investigation within one year of the date of this order;
4. The applicant shall submit a development and management plan

pursuant to sections 16-50j-75 through 16-50j-77 of the regulations of state agencies except that irrelevant items in section 16-50j-76 need only be identified as such.

5. This decision and order shall be void if all construction including the removal of existing towers and support structures, is not completed by November 1, 1983.

We hereby direct, pursuant to section 16-50p(c) of the General Statutes that a copy of the opinion and decision and order be served on each person listed below. A notice of the issuance of this decision shall be published in the Norwich Bulletin.
