Re: Docket 272 – Corrections to Segment 2b D&M Plan

Dear Chairman:

On June 15, 2006, The Connecticut Light and Power Company (CL&P) filed the Development and Management (D&M) Plan for Segment 2b of the Middletown-Norwalk Project. Segment 2b includes all transmission line construction from the Cheshire/Hamden town line to the East Devon Substation in Milford, involving construction and reconstruction of overhead lines in Hamden, Bethany, Woodbridge, Orange, West Haven and Milford.

Since that time, we have made minor corrections to two drawings -- Sheets 11 and 12, Volume 2 of 2 -- regarding the depiction of the width of the rights of way near the B'nai Jacob and Jewish Community Center facilities. In addition, a property line that was mistakenly shown to be within the right of way was corrected for Sheet 12.

CL&P has changed its D&M Plan to reflect the revisions described above. Enclosed are five (5) copies of the replacement drawings for the Segment 2b D&M Plan. We are providing the appropriate municipal officials with multiple copies of these drawings. A copy of this transmittal letter will also be sent to all parties and intervenors of record in Docket 272.

Please contact me at 860-665-2771 if you have any questions regarding these corrections.

Sincerely,

Anne Bartosewicz
Middletown-Norwalk Project Director
