Re: **EM-VER-058-140714 – Cellco Partnership d/b/a Verizon Wireless  
257 Norman Road, Jewett City (Griswold), Connecticut**

Dear Ms. Bachman:

On August 4, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 257 Norman Road in Jewett City, Connecticut. The modifications involved the replacement of its antennas and the installation of remote radio heads and a new fiber optic antenna cable.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the modifications referenced in the structural report were completed. Attached is a Professional Engineer's Modification Certification Letter verifying that the modifications were completed in accordance with the Structural Analysis and all construction activity has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Tower Modification Certification**

**Project:** Verizon Jewett City  
257 Norman Road, Jewett City, CT

**Tower Owner:** SBA Communications Corp.  
8051 Congress Ave, Boca Raton, FL

**Engineer:** FDH Engineering, Inc.  
6521 Meridien Dr., Raleigh, NC

**Centek Project No.:** 15003.058

**CSC Exempt Mod Reference No.:** EM-VER-058-140714

Dear Mr. Parks,

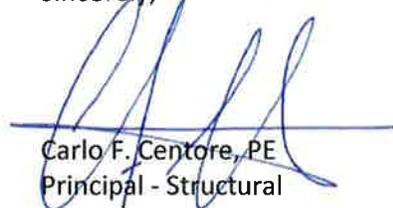

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by FDH Engineering, Inc. (FDH Project Number: 1425PL1400):

- Review of the FDH Engineering, Inc. Structural Analysis dated 3/28/14.
- Field observations by Centek Engineering personnel on 02/27/2016.

The modification design prepared by FDH Engineering, Inc. demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

  
Carlo F. Centore, PE  
Principal - Structural
