Re: **DOCKET NO. F-2005 – Connecticut Siting Council Review of the Ten Year Forecast of Connecticut Electric Loads and Resources**

Dear Mr. Phelps:

Pursuant to your letter dated January 18, 2005, the following is intended to fulfill Bridgeport Energy LLC's (BE) obligation to file a report as described in Connecticut General Statute 16-50r.

(1) Tabulation of Estimated Peak Loads, Resources, and Margins

BE owns a single generating asset in Bridgeport, Connecticut. The facility is a nominal 490MW 2x1 gas turbine based combined cycle generating plant.

As a wholesale seller of energy in New England, our projected load is intended to precisely equal our resources for the study period. Therefore, we expect loads and resources to be balanced at 490MW over the entire period of 2004 – 2013.

(2) Data on Energy Use and Peak Loads for the Five Preceding Calendar Years

BE's sales of wholesale energy are as follows:

	<u>Load, MW</u>	<u>Energy, MWh</u>
2000	520	1,797,446
2001	520	2,286,500
2002	520	3,322,633
2003	490	3,024,204
2004	490	3,180,200

¹ BE previously reported 520MW nominal; the 490MW reported in 2004 reflects a reduction due to gas turbine limitations.

(3) A list of Existing Generating Facilities in Service

Bridgeport Energy, Bridgeport, CT 490MW gas-fired combined cycle is the only asset in service subject to reporting hereunder.

(4) A list of Scheduled Generating Facilities For Which Property Has Been Acquired, For Which Certificates Have Been Issued, and For Which Certificate Applications Have Been Filed

None

(5) A List of Planned Generating Units at Plant Locations For Which Property Has Been Acquired, or At Plant Locations not Yet Acquired, That Will Be Needed To Provide Estimated Additional Electrical Requirements, and The Location of Such Facilities

None

(6) A List of Planned Transmission Lines On Which Proposed Route Reviews Are Being Undertaken Or For Which Certificate Applications Have Already Been Filed

None

(7) A Description of the Steps Taken To Upgrade Existing Facilities And To Eliminate Overhead Transmission And Distribution Lines In Accordance With The Regulations And Standards Described In Section 16-50t

None

(8) Private Power Producers

Not applicable

Please call me at (713) 627-4600 if we can provide any further information on this matter.

Very truly yours,

Brad Porlier
