Re: Docket No. F-2007 – Connecticut Siting Council Review of the Ten-Year Forecast of Connecticut Electric Loads and Resources

Dear Mr. Phelps:

The United Illuminating Company (UI) is in the process of revising its load forecast methodology, specifically in the development of forecasted peak loads. It is this peak load forecast which drives the need for electric system infrastructure. The resulting load forecast and infrastructure plan will not be completed in time to file the Company's annual report to the Connecticut Siting Council on March 1, 2007.

UI respectfully requests an extension in order to complete this forecast and infrastructure plan. UI will strive to file its Ten Year Forecast of Loads and Resources by April 15, 2007, with the latest filing date of May 1, 2007.

Respectfully submitted,

THE UNITED ILLUMINATING COMPANY
