**Re: Docket No. F-2007: Connecticut Siting Council Review of the  
Ten-Year Forecast of Connecticut Electric Loads and Resources**

Dear Ms. Healey:

On or about February 28, 2007 PSEG Power Connecticut, LLC submitted its annual Load Forecast Report to the Connecticut Siting Council in accordance with C.G.S.A. §16-50r.

Although PSEG Power Connecticut LLC has not intervened and is not a party to the above-referenced matter, in the interests of assisting the CEAB's inquiries and without waiving any rights, enclosed please find PSEG Power Connecticut's responses to your data requests.

If you have any questions please do not hesitate to contact me at 973-430-5754.

Very truly yours,

Alexander C. Stern

**Information Requests From  
The Connecticut Energy Advisory Board  
To Organizations Operating Generating Facilities  
CSC Docket No. F-2007  
April 16, 2007  
To Generating Facility Owners**

1. In reference to the list of existing generating facilities in service, please provide the location of the facility by ISO New England RSP zone and describe the ability of each facility to provide (a) operating reserves (i.e., capacity by ISO reserve category) into the new Locational Forward Reserve Market, and (b) a quick start capability.

UNIT	RESERVE ZONE	OP RESERVE category	CAPACITY Claim 10 or Claim 30	QUICK START
Bridgeport Harbor Station Unit 2	SW Connecticut	N/A	N/A	No
Bridgeport Harbor Station Unit 3	SW Connecticut	N/A	N/A	No
Bridgeport Harbor Station Unit 4	SW Connecticut	TMNSR	15 Mw	Yes
New Haven Harbor Station	Connecticut	N/A	N/A	No

2. In relation to the list of planned generating facilities, please provide the location of the facility by ISO New England RSP zone and describe the ability of each facility to provide (a) operating reserves (i.e., capacity by ISO reserve category) into the new Locational Forward Reserve Market, and (b) a quick start capability.

NOT APPLICABLE

3. (a) Please identify all generating units (by name and capacity) that currently operate under "RMR Contract" with ISO New England, or other such contracts that supplement revenues available through ISO-administered markets. (b) Please identify the current termination date for each such contract.

UNIT	CAPACITY High Operating Limit (normal) per RMR	AGREEMENT TYPE	TERMINATION DATE
Bridgeport Harbor Station Unit 2	158 Mw	RMR Contract with ISO New England	June 1, 2011
New Haven Harbor Station	455 Mw	RMR Contract with ISO New England	June 1, 2011
