RE: Petition No. 815 – Iroquois Gas Transmission System, L.P. Petition for a Declaratory Ruling that the Connecticut Siting Council has an Advisory Role to the Federal Energy Regulatory Commission Regarding Iroquois's 08/09 Expansion Project in Brookfield, Newtown, and Milford, Connecticut

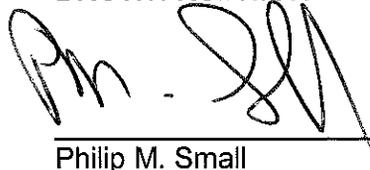

Dear Chairman Caruso:

On behalf of Iroquois Gas Transmission System, L.P., enclosed are an original and twenty (20) copies of Iroquois' Late-Filed Exhibit No. 5.

Please contact me with any questions concerning this filing.

Very truly yours,

BROWN RUDNICK BERLACK ISRAELS LLP

Open Space

CONNECTICUT
SITING COUNCIL

Siting Council staff asked Iroquois whether, if the proposed project is approved by the FERC, Iroquois would be willing to set aside all undeveloped land on the Brookfield site as open space. Iroquois is not willing to set aside all undeveloped land on the Brookfield site as open space because it may be necessary and appropriate in the future to construct additional gas pipeline-related buildings and structures on this site. Nevertheless, Iroquois recognizes the value of preserving a significant buffer between Iroquois' facilities and the Whisconier Middle School. Once the proposed project is approved by FERC and constructed, Iroquois would be amenable to considering deed restrictions to preserve a buffer zone between its facilities and the school. In order to protect the primary purpose of a buffer zone, the deed restrictions would have to prohibit public access, as well as development.
