FROM: Melanie Bachman, Acting Executive Director *WAB*

RE: **PETITION NO. 1156** – Eversource Energy petition for a declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed replacement of an existing 120-foot tall telecommunications facility with a new 150-foot telecommunications facility located at property owned by Eversource Energy used as a service center and maintenance yard, 2 Tindall Avenue, Norwalk, Connecticut.

The Council is in receipt of the above-noted petition (Petition) from Eversource Energy to replace an existing 120-foot telecommunications facility with a new 150-foot telecommunications facility in the City of Norwalk. The Petition may be viewed online under our Pending Proceedings page at:
http://www.ct.gov/csc/lib/csc/pending_petitions/1_petitions_1144through1200/pe1156_filing_norwalk.pdf

In furtherance of the state tower sharing policy pursuant to C.G.S. §16-50aa, we ask that each telecommunications carrier affirmatively state if the carrier would likely seek to be located on this proposed replacement facility at any time within the foreseeable future. If any carrier has a present or future interest in co-locating on the proposed replacement telecommunications facility, a response on or before June 9, 2015, will be appreciated.
