

FuelCell Energy

Ultra-Clean, Efficient, Reliable Power

August 14, 2015

Melanie Bachman, Esq.
Acting Executive Director
Connecticut Siting Council
Ten Franklin Square
New Britain, CT 06051

RE: **PETITION NO. 922** – UIL Distributed Resources, LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the installation of a Fuel Cell generating facility located at 1835 Hebron Avenue, Glastonbury, Connecticut.

Dear Ms. Bachman:

FuelCell Energy, Inc. (“FCE”), as general contractor and agent for UIL Distributed Resources, LLC (“UIL”), owner of the above-captioned project (the “Project”) was present at the Siting Council’s August 6, 2015 meeting where the site restoration and landscaping plan was addressed. FCE appreciates the Council’s comments on its site restoration and landscaping plan (the “Plan”) and has revised the Plan to address those comments. FCE herein submits the revised Plan for Siting Council approval.

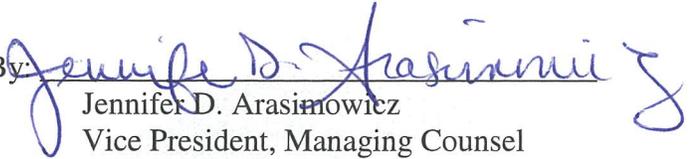

Please note that FCE has added the additional shrub plantings suggested by members and staff of the Council in the northwest corner of the Project near the corner of Hebron Avenue and Chalker Hill Road. Plantings there were originally not contemplated, as in recent discussions with Eversource concerning the existing utility pole north of the stormwater retention basin, Eversource has advised that it believes the grade to be too steep for its bucket truck access. Accordingly, FCE will back fill and rock 12 feet toward Hebron Avenue in order to level the grade and provide adequate bucket truck access. No additional foliage will be removed and, FCE has determined that it can achieve the necessary access and still add the plantings requested by the Council, although one or more of the shrubs may be shifted north by a de minimis amount. Please see the attached annotated photographs for a better depiction.

If you have any questions with respect to the foregoing, please contact the undersigned. Thank you for your consideration.

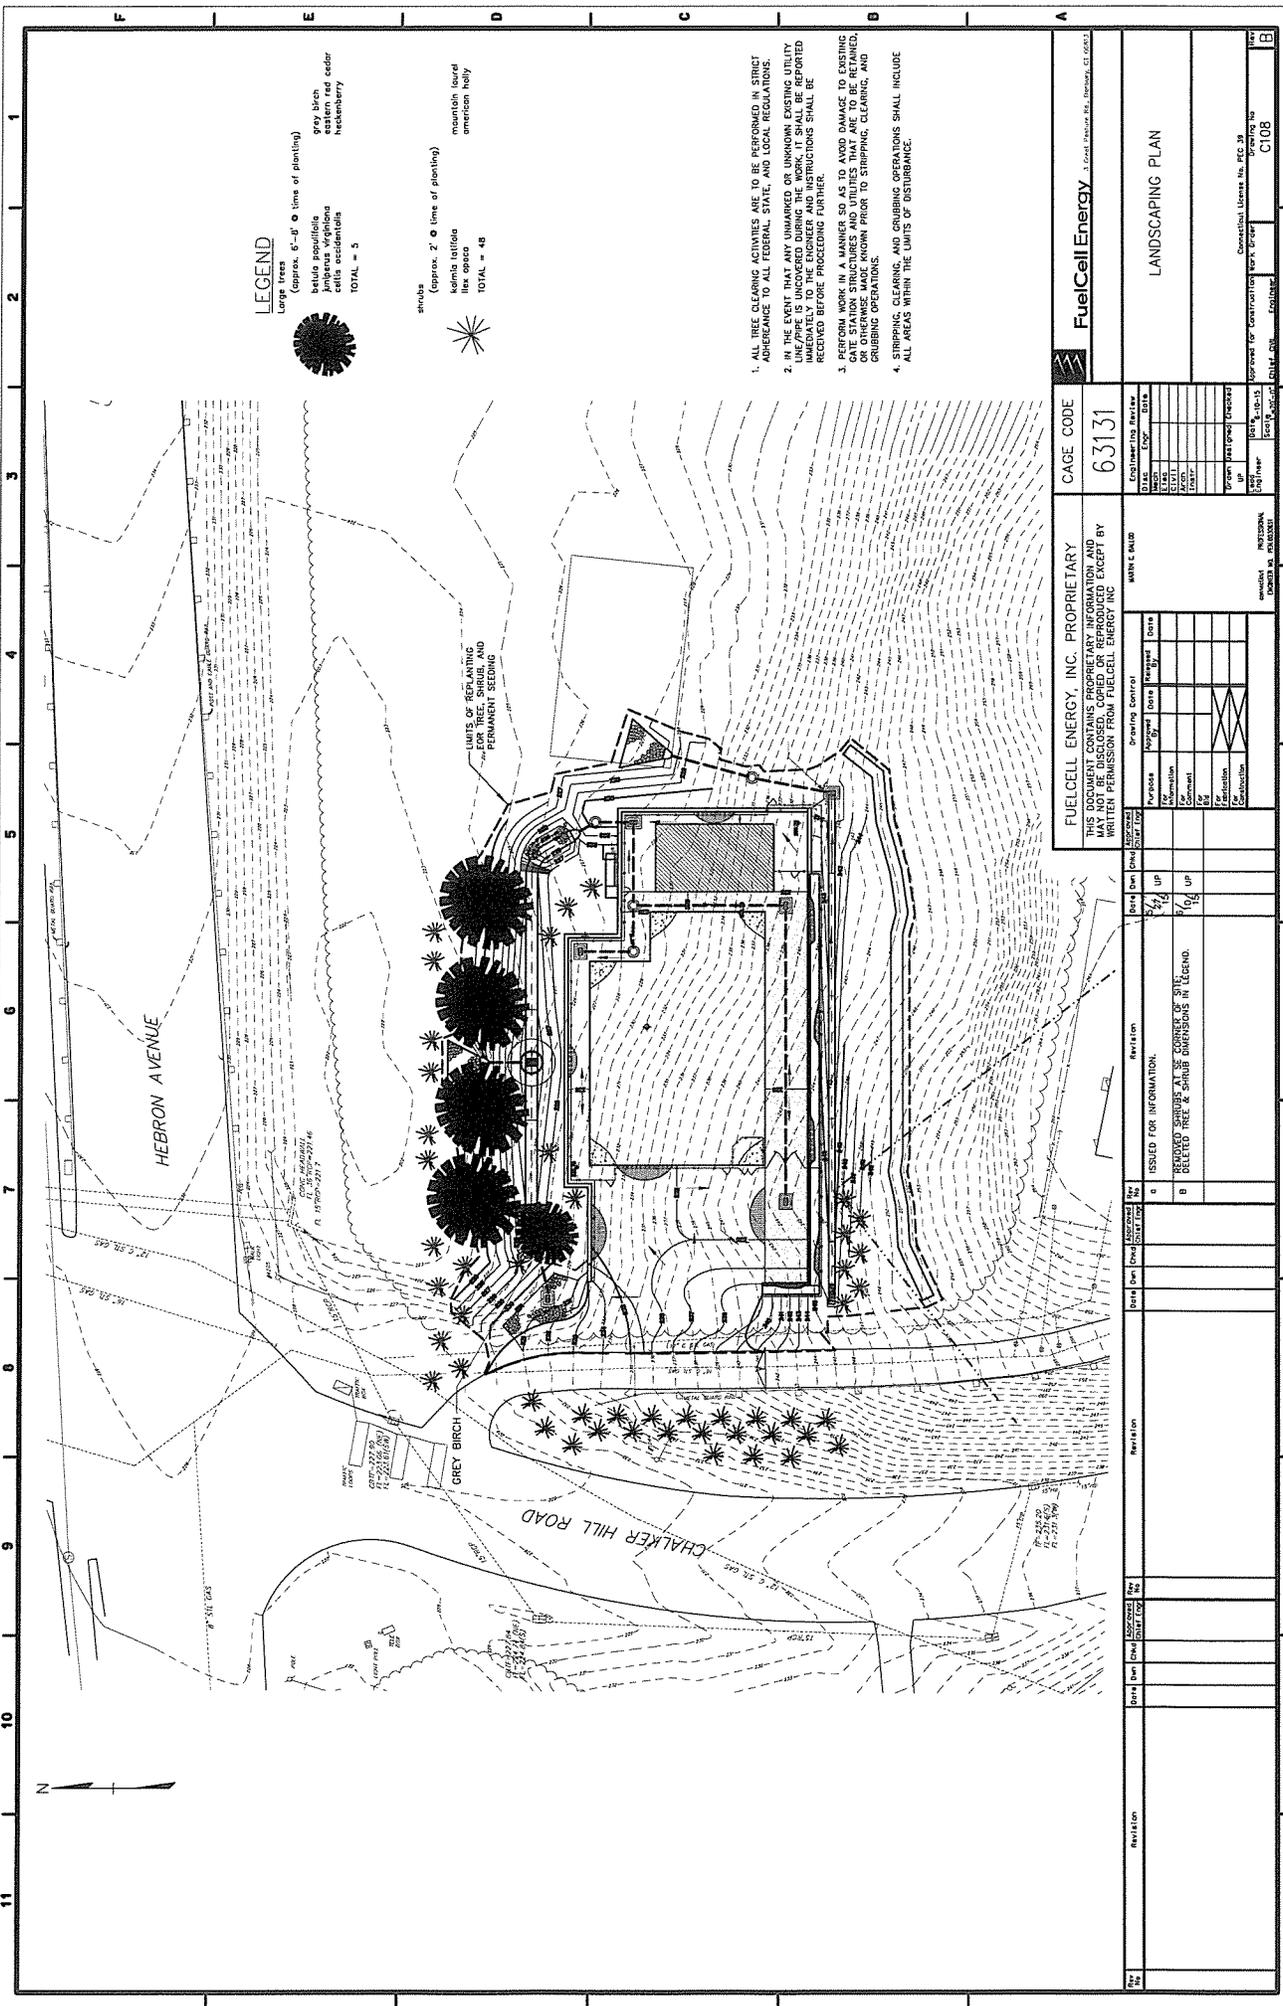

Respectfully submitted,

FUELCELL ENERGY, INC.
On behalf of
UIL DISTRIBUTED RESOURCES, LLC
