

Please except this as further response to UI's opposition, dated February 17, 2015, to my Petition to obtain Intervener status in the Siting Council ,regarding Petition #1120. After further review of the procedures of CSC and being on the pre-hearing conference call I have a better understand of the role of an intervener and will adhere to them.

I will address questions to the petitioner as it relates to the project and the petition.

I will address any questions the group may have regarding this petition thru interrogatories to the Siting Council.

I am representing the Group the "Concerned Citizens of North Stratfield" to get precise details of the proposed UI modification and expansion project so the neighbors understand the full scope of the project.

I will not impair the orderly conduct of the Siting Councils proceedings.

I will follow all policies and procedures the Siting Council has imposed.

Thank you for allowing me to submit this to the Siting Council to UI's opposition regarding my application as an intervener.

You're truly,

Arthur Tournas
