

May 29, 2015

The Hon. Robin Stein
Chairman
Connecticut Siting Council
Ten Franklin Square
New Britain, CT 06051

RE: **PETITION NO. 922** – UIL Distributed Resources, LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the installation of a Fuel Cell generating facility located at 1835 Hebron Avenue, Glastonbury, Connecticut.

Dear Chairman Stein:

FuelCell Energy, Inc., (“FCE”) as general contractor and agent for UIL Distributed Resources, LLC (“UIL”), owner of the above-captioned project (the “Project”), is writing to clarify the record in this matter.

The undersigned was present at the Council’s meeting on May 28, 2015 and heard the comments of various Council members, including Mr. Ashton. FCE would like to make the record in this matter clear that, pursuant to its contract with UIL, FCE was at all times, and remains solely responsible for the permitting and construction of the Project, including the necessary Siting Council approvals and notifications. All prior filings in this matter have been made by FCE. The failure to notify the Council of the shift in the Project location was an oversight of FCE, not of UIL. FCE accepts full responsibility for this oversight and is taking steps to ensure that it does not happen again.

FCE has not discussed the contents of this letter with UIL prior to its filing. FCE deeply regrets its oversight and the unfortunate attention being placed on UIL in this matter as a result. FCE appreciates the opportunity to provide the Council with this clarification.

If you have any questions with respect to the foregoing, please contact the undersigned. Thank you for your consideration.

FuelCell Energy
Ultra-Clean, Efficient, Reliable Power

Respectfully submitted,

FUELCELL ENERGY, INC.
