RE: DOCKET NO. 338 – SBA Towers IV, LLC Certificate of Environmental Compatibility and Public Need for the construction, maintenance and operation of a telecommunications facility located at 160 West Street, Cromwell, Connecticut.

Dear Mr. Roth:

During a meeting of the Connecticut Siting Council (Council) held on April 2, 2015, the Council voted to approve SBA's proposed "stealth antenna socks" to conceal Verizon's installation on the existing monopine at the above referenced location in a manner that is consistent with the approved Development and Management Plan for the facility with the condition that the socks be removed if they interfere with Verizon's service and that SBA, in consultation with Verizon, investigate alternative concealment methods and provide the preferred method to the Council for review and approval.

Thank you for your attention to this matter.

Sincerely,

Melanie A. Bachman
Acting Executive Director
