Re: **Docket No. 339 – Optasite Towers LLC and Omnipoint Communications, Inc. Application for a Certificate of Environmental Compatibility and Public Need for the Construction, Maintenance and Operation of a Telecommunications Facility Located at 640 Hilliard Street, Manchester, Connecticut**

Dear Chairman Caruso and Members of the Council:

I write on behalf of Cellco Partnership d/b/a Verizon Wireless (“Cellco”) regarding its interest in sharing the tower proposed in the above-referenced docket.

Even though Cellco did not seek to intervene in the Docket No. 339 proceeding, it has recently determined that the proposed facility would satisfy a need for PCS coverage and capacity relief in northwest Manchester. That need could be satisfied by the mounting of antennas at the 137-foot level on the proposed tower.

If the Council approves the Docket No. 339 application as proposed, Cellco will file notice of its intent to modify the facility pursuant to R.C.S.A. § 16-50j-72(b)(2).
