Executive Director
Connecticut Siting Council
Ten Franklin Square
New Britain, CT 06051

**Re: Docket No. 386
123 Pine Orchard Road, Branford, Connecticut**

Dear Ms. Roberts:

I write with respect to the telecommunications facility ("Facility") approved by the Connecticut Siting Council ("Council") in Docket 386. Please accept this letter as written notice of the completion of site construction and the commencement of site operation in accordance with Order 12 of the Council's Decision and Order ("D&O"). Additionally, the Council received a cumulative worst-case modeling of the electromagnetic radio frequency power density during the proceedings for this docket. Please refer to Finding 79 of the Council's Findings of Fact. There are no circumstances to date which would warrant a recalculated power density report. Accordingly, please accept this letter as compliance with Order 3 of the Council's D&O.

Please contact me if you have any questions or you require additional information.

Very truly yours,

Jesse A. Langer
