SITING COUNCIL

ORIGINAL

Dear Mr. Phelps,

Attached please find the Capitol District Energy Center Cogeneration Associates annual report in accordance with Section 16-50r of the Connecticut General Statutes. The original and 20 copies are enclosed. Please accept my apologies for the tardiness of this submission. I was not aware of the requirement.

Based on a review of Section 16-50r on the Connecticut General Assembly website: "persons that generate electric power in the state utilizing a generating facility with a capacity greater than one megawatt shall file reports pursuant to this section that include the information requested in subdivisions (3), (4), (5), and (8) of this subsection."

I have also included a list of the generation for each of the last five years, as requested by Michael Perrone, Siting Analyst, during our phone conversation this morning.

If you have any further questions please contact me at (403) 750-9318.

Sincerely,

Heather Wilton, P.Eng.
Manager, Northeast U.S. Facilities
Maxim Power Corp.

cc. Mike Baier, CDECCA Plant Manager, PurEnergy

(3) a list of existing generating facilities in service;

Capital District Energy Center Cogeneration Associates is a subsidiary of Maxim Power (USA), Inc. It has a nameplate capacity of 62MW.

(4) a list of scheduled generating facilities for which property has been acquired, for which certificates have been issued and for which certificate applications have been filed;

None

(5) a list of planned generating units at plant locations for which property has been acquired, or at plant locations not yet acquired, that will be needed to provide estimated additional electrical requirements, and the location of such facilities;

None

(8) for each private power producer having a facility generating more than one megawatt and from whom the person furnishing the report has purchased electricity during the preceding calendar year, a statement including the name, location, size and type of generating facility, the fuel consumed by the facility and the by-product of the consumption.

Not applicable – not a private power producer

Total net MWh generation for the last 5 years:

2005: 2,497

2006: 13,570 (MAXIM took ownership October 1, 2006)

2007: 22,502

2008: 17,624

2009: 6,555
