RE: Waterside Power 16-50r Response

Dear Ms. Roberts,

Please accept this correspondence as completing the annual reporting requirement as defined in your letter dated July 11, 2011. Please also note that the July 11, 2011 letter was addressed to an incorrect point of contact for the facility. The new mailing address for all correspondence is:

Waterside Power
500 West Ave Rear Lot
Stamford, CT 06902

Section 16-50r Responses:

- 1) The Waterside Power generating facility has a nominal facility rating of 69.6 MWs.
- 2) The table below reports, as also reported to the Energy Information Administration, the output from the facility during the five previous calendar years.

Waterside Power Electrical Output:

Year	2006	2007	2008	2009	2010
MWs	1499	2829	3871	2030	5185

- 3) The Waterside Power generating facility is in service.
- 4) Waterside Power is not scheduling a generating facility construction project.
- 5) Not Applicable.
- 6) Not Applicable, no planned transmission lines projects.
- 7) There are no upgrade projected scheduled for the facility.
- 8) Not Applicable.

If you should have any questions please do not hesitate to contact me at (912) 826-3277 or by email at mlydon@camsops.com.

Sincerely,

Matt Lydon
