Re: Petition 1056: Petition of GRE 314 East Lyme, LLC Development and Management Plan ("D&M Plan") for the Antares Solar Field a 5 MW Solar Photovoltaic Renewable Energy Generating Project on Grassy Hill Road and Walnut Hill Road in East Lyme, Connecticut

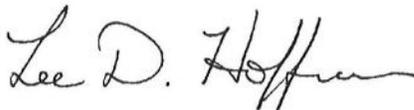

Dear Ms. Bachman:

On behalf of the petitioner, GRE 314 East Lyme, LLC, enclosed is an original and fifteen (15) copies of the petitioner's request to the Council in which the petitioner seeks to modify the Development and Management (D&M) Plan for the project.

As the Council can see from the enclosed revised drawing (Drawing # GU-2A), through this modification to its D&M Plan, the petitioner is seeking to relocate the driveway entrance to the facility by approximately twenty (20) feet. The reason for this re-location is that as currently designed, the site will need to share access with the driveway to the Tinker House and other properties, necessitating the placement of an easement upon the driveway so that it can be used by multiple parties. By relocating the driveway as described in Drawing GU-2A, the site will have its own access that will be located entirely within the site's boundaries. No other changes to the D&M Plan are contemplated at this time.

Should you have any questions concerning this submittal, please contact me at your convenience. Thank you in advance for your assistance.

Respectfully submitted,

Lee D. Hoffman
