Re: Petition for a Declaratory Ruling - Plainfield Renewable Energy LLC

Dear Chairman Tait:

Plainfield Renewable Energy LLC ("PRE") submits to the Connecticut Siting Council ("Council") an original and twenty (20) copies of its Petition for a Declaratory Ruling ("Petition") that a Certificate of Environmental Compatibility and Public Need is not required for the construction and operation of a new 37.5 megawatt Class I biomass staged gasification electric power plant in the Town of Plainfield, Connecticut ("Project"). PRE is a joint venture of Decker Energy International, Inc. ("Decker") and NuPower LLC. Please note that even though this is a Petition, PRE has provided to the Council generally the information required by Connecticut General Statutes § 16-50(b) and the Council's Application Guide for Electric Generating Facility dated January 19, 2000 ("Application Guide").

Also enclosed is a bulk filing consisting of four copies of municipal, zoning, planning, planning and zoning, conservation and inland wetlands regulations and bylaws for Plainfield and the Town of Canterbury pursuant to paragraph VIII.M of the Council's Application Guide.

I have enclosed Decker's check in the amount of \$500 for the Petition filing fee.

Please call me if you have questions concerning this filing.

Very truly yours,

Linda L. Randell
