Re: **Petition 784** - Petition of Plainfield Renewable Energy LLC for a
Declaratory Ruling that No Certificate of Environmental Compatibility and
Public Need Is Required for the Construction, Maintenance, and Operation
of a 37.5 MW Wood Biomass Staged Gasification Generating Project in
Plainfield, Connecticut

Dear Chairman Caruso:

In response to a request from Siting Council staff, I enclose a map depicting the water intake/discharge location for the Plainfield Renewable Energy project for filing as a late filed exhibit. The map depicts the location of the pipe as well as federal and state wetlands. Counsel for The Connecticut Light and Power Company ("CL&P"), Bob Golden, has authorized me to inform the Council that CL&P does not object to the filing of this late filed exhibit with the Council.

Please do not hesitate to contact me should you have any questions concerning this Plainfield Renewable Energy filing.

Very truly yours,

Bruce L. McDermott
