Glastonbury, CT 06033

RE: **PETITION NO. 784** - Plainfield Renewable Energy, LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction, maintenance, and operation of a 37.5 MW Wood Biomass Generating Project, Plainfield, Connecticut. Development and Management Plan.

Dear Mr. Atkin:

At a public meeting of the Connecticut Siting Council held on June 23, 2011, the Connecticut Siting Council (Council) considered the Development and Management (D&M) Plan and acted as follows:

- a) approved the commencement of site clearing while a request for more information regarding site construction is pending;
- b) approved Anchor Engineering Services, Inc. as the environmental inspector except for the horizontal directional drilling (HDD) portion of the project at the river intake/discharge parcel;
- c) required PRE to retain an outside environmental inspector experienced in HDD to monitor the HDD installation at the river intake/discharge location and submit the name and qualifications of the inspector to the Council for approval prior to the commencement of HDD operations;
- d) required that Anchor Engineering submit monthly environmental inspection reports; and
- e) required a copy of the D&M Plan be provided to the Towns of Plainfield and Canterbury, CL&P, the Friends of the Quinebaug River and the Rivers Alliance.

Please be advised that the Council's action on the D&M Plan is specific to the items listed above. Any deviations from the approved portions of the D&M Plan are enforceable under the provisions of the Connecticut General Statutes § 16-50u.

Thank you for your attention and cooperation.

Very truly yours,

Robert Stein
Chairman
