Re: **Petition 784** - Petition of Plainfield Renewable Energy LLC for a
Declaratory Ruling that No Certificate of Environmental Compatibility and
Public Need Is Required for the Construction, Maintenance, and Operation
of a 37.5 MW Wood Biomass Staged Gasification Generating Project in
Plainfield, Connecticut

Dear Chairman Caruso:

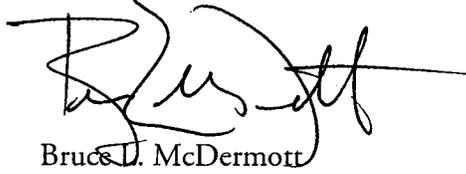

The November 9, 2006 pre-file testimony of Macauley Whiting, Jr. and Michael Holzman (Plainfield Renewable Energy ("PRE") Exhibit 6) indicates that the air quality impact analysis, which is part of the Connecticut Department of Environmental Protection ("DEP") air permit application, was completed following the filing of the air permit application with the DEP and the Siting Council Petition. Page 4. Exhibit 6 also indicates that a summary report was being prepared for submittal to DEP and that the Siting Council will be provided a copy of the final submittal. *Id.* I enclose for filing as a late filed exhibit the air quality impact analysis, dated December 7, 2006. Counsel for The Connecticut Light and Power Company ("CL&P"), Bob Golden, has authorized me to inform the Council that CL&P does not object to the filing of this late filed exhibit with the Council.

Daniel Caruso, Esq.
