**RESOURCE REPORT 13 – ADDITIONAL INFORMATION
RELATED TO LNG PLANTS
FERC ENVIRONMENTAL CHECKLIST**

Part 380 – Minimum Filing Requirements for Environmental Reports	Company Compliance or Inapplicability of Requirement
Provide all the listed detailed engineering materials. (§ 380.12 (o)).	Not applicable

13.0 INTRODUCTION

This resource report is required for the construction of new LNG facilities, or the recommissioning of existing LNG facilities. The 08/09 Expansion Project does not involve these activities and therefore, in accordance with FERC guidance provided in 18 CFR Part 380.12(o), Resource Report 13 addressing additional information related to LNG facilities is not required for any of the three phases of the 08/09 Expansion Project.
